A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table. The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

General Information

This book is effective September 3, 2019, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest 1/8". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon  will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an  are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Axon rectangular table, stone top KTRS-

Product Information

Description

The rectangular Axon™ table comes in 3 depths and several widths ranging from 72" wide to 240" wide. Stone tops are $\frac{13}{16}$ " thick with eased edge.

Notes

Table understructure finish matches specified base finish.

Base type A is a pair of $2\frac{3}{4}$ " diameter $\times$ 26" high metal post legs.

Base type B is $2\frac{3}{4}$ " deep $\times$ $28\frac{1}{4}$ " wide $\times$ 26" high.

Base type C is $7\frac{1}{8}$ " deep $\times$ $28\frac{1}{4}$ " wide $\times$ 26" high.

When specifying table with oval power cutout (1C1, 2C2, 3C2, 3C3, 4C3, 4C4) option, order oval power modules (KPV1, KPV2) separately. Each module provides 3 simplex receptacles and 1 dual USB port.

When specifying table with trough power lids (1L1, 2L2, 2L3, 4L3, 4L4, 6L4) option, table includes $6\frac{5}{8}$ " deep $\times$ $5\frac{3}{4}$ " high trough with removable metal cover between bidirectional flip-up metal power module lids. Includes trough bezel and lids. Order trough power modules (KPT1, KPT2) separately.

Table includes knockouts on underside at edge of table to accept edge USB power modules. Order edge USB power modules (KUSBx) separately.
