A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table. The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

This book is effective April 1, 2019, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices in US Dollars. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest 1/8". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

Product Information

Description

This credenza provides enclosed filing and storage and can be used freestanding or attached to a Canvas wall-based frame to support a frame run. It has a $\frac{3}{8}$ "-high or $1\frac{1}{4}$ "-high laminate or veneer top and a painted steel case. It is available with 4"-high architectural feet, 4"-high sleeveless architectural feet or a $2\frac{1}{4}$ "-high base with 1" leveling glides. The credenza has a positive interlock system that permits only 1 drawer to open at a time. Drawers have full-extension ball-bearing slides. The file drawer accommodates front-to-back filing of letter-, legal, and A4-size hanging files.

Actual credenza widths are $29\frac{7}{8}$ ", $35\frac{7}{8}$ ", $41\frac{7}{8}$ ", $59\frac{3}{4}$ " or $71\frac{3}{4}$ "; actual depth is $19\frac{7}{8}$ ".

Notes

For additional product options, see Vary Easy Program in Appendices. Arc pull option (A.) conforms to guidelines of Americans with Disabilities Act (ADA).

File drawers are standard with side-to-side hardware. Order front-to-back rail (FM920.) separately.

Counterweight option (CB) must be specified when a file is not ganged or anchored.

Grain direction is vertical on veneer and wood-grain laminate fronts.

30", 36", and 42"-wide credenzas have 1 box drawer and 1 file drawer.

60"-and 72"-wide credenzas have 2 box drawers and 2 file drawers.

Credenza with 4"-high foot option (4) and $\frac{3}{8}$ " thin top can be used to support a Canvas wall-based frame. Order support bracket, low credenza-to-frame (FT292.) separately.

To cover adjacent credenzas with a single top, specify credenzas with no top option (NT) and order credenza top (FM890.) separately.

$1\frac{1}{4}$ " top (06 and 07) is not removable and cannot be used to support a Canvas wall-based frame. The $1\frac{1}{4}$ " top will add $\frac{5}{8}$ " to overall height of unit.

Please note that on the 4" sleeveless architectural foot (5) glides will be more visible.

To provide temporary guest seating on a credenza, order cushion top (FF891.) separately.

For keyed-alike locks, see Keyed-Alike Information in Appendices.

Product Information

Description

This credenza provides drawer storage on 1 side with open storage on the other side. It can be used freestanding or attached to a Canvas wall-based frame to support a frame run. The credenza can also be used to support 1 end of a surface. It has a $\frac{3}{8}$ "-high or $1\frac{1}{4}$ "-high laminate or veneer top and a painted steel case. It is available with 4"-high architectural feet, 4"-high sleeveless architectural feet or a $2\frac{1}{4}$ "-high base with 1" leveling glides. The credenza has a positive interlock system that permits only 1 drawer to open at a time. Drawers have full-extension ball-bearing slides. The file drawer accommodates front-to-back filing of letter-, legal, and A4-size hanging files.

Actual credenza widths are $47\frac{7}{8}$ ", $59\frac{7}{8}$ " or $71\frac{7}{8}$ "; actual depth is $19\frac{7}{8}$ ".

Notes

For additional product options, see Vary Easy Program® in Appendices. Arc pull option (A.) conforms to guidelines of Americans with Disabilities Act (ADA).

File drawers are standard with side-to-side hardware. Order front-to-back rail (FM920.) separately.

Counterweight option (CB) must be specified when a file is not ganged or anchored.

Grain direction is vertical on veneer and wood-grain laminate fronts.

Open side of credenza includes 1 adjustable shelf that adjusts in $1\frac{1}{4}$ " increments.

Order optional metal credenza shelf (FM892.) separately.

Credenza with 4"-high foot option (4) and $\frac{3}{8}$ " thin top can be used to support a Canvas wall-based frame. Order support bracket, low credenza-to-frame (FT292.) separately.

When using credenza to support 1 end of a surface, order 1 of the following products separately:

- Surface support, low credenza, adjustable height (FT299.)
- Surface support, low credenza, fixed height (FT298.)

To cover adjacent credenzas with a single top, specify credenzas with no top option (NT) and order credenza top (FM890.) separately.

$1\frac{1}{4}$ " top (o6 and o7) is not removable and cannot be used to support a Canvas wall-based frame. The $1\frac{1}{4}$ " top will add $\frac{5}{8}$ " to overall height of unit.

Please note that on the 4" sleeveless architectural foot (5) glides will be more visible.

To provide temporary guest seating on a credenza, order cushion top (FF891.) separately.

For keyed-alike locks, see Keyed-Alike Information in Appendices.

Product Information

Description

This credenza provides enclosed filing and storage and can be used freestanding or attached to a Canvas wall-based frame to support a frame run. It has a $\frac{3}{8}$ "-high or $1\frac{1}{4}$ "-high laminate or veneer top and a painted steel case. It is available with 4"-high architectural feet, 4"-high sleeveless architectural feet or a $2\frac{1}{4}$ "-high base with 1" leveling glides. The credenza has a positive interlock system that permits only 1 drawer to open at a time. Drawers have full-extension ball-bearing slides. The file drawer accommodates front-to-back of letter-, legal, and A4-size hanging files.

Actual credenza widths are $47\frac{7}{8}$ ", $59\frac{7}{8}$ " or $71\frac{7}{8}$ "; actual depth is $19\frac{7}{8}$ ".

Notes

For additional product options, see Vary Easy Program in Appendices. Arc pull option (A.) conforms to guidelines of Americans with Disabilities Act (ADA).

File drawers are standard with side-to-side hardware. Order front-to-back rail (FM920.) separately.

Counterweight option (CB) must be specified when a file is not ganged or anchored.

Grain direction is vertical on veneer and wood-grain laminate fronts.

Storage compartment with door(s) includes 1 adjustable shelf that adjusts in $1\frac{1}{4}$ " increments.

Order optional metal credenza shelf (FM892.) separately.

Credenza with 4"-high foot option (4) and $\frac{3}{8}$ " thin top can be used to support a Canvas wall-based frame. Order support bracket, low credenza-to-frame (FT292.) separately.

When using credenza to support 1 end of a surface, order 1 of the following products separately:

- Surface support, low credenza, adjustable height (FT299.)
- Surface support, low credenza, fixed height (FT298.)

To cover adjacent credenzas with a single top, specify credenzas with no top option (NT) and order credenza top (FM890.) separately.

$1\frac{1}{4}$ " top (o6 and o7) is not removable and cannot be used to support a Canvas wall-based frame. The $1\frac{1}{4}$ " top will add $\frac{5}{8}$ " to overall height of unit.

Please note that on the 4" sleeveless architectural foot (5) glides will be more visible.

To provide temporary guest seating on a credenza, order cushion top (FF891.) separately.

For keyed-alike locks, see Keyed-Alike Information in Appendices.

Product Information

Description

This powered credenza provides drawer storage on 1 side with open storage on the other side and can be used freestanding, to support 1 end of a surface, or attached to a Canvas wall-based frame to support a frame run. It has a $\frac{3}{8}$ "-high laminate or veneer top and a painted steel case with a painted, laminate, or veneer front. The credenza is available with 4"-high architectural feet with 1" leveling glides and has a positive interlock system that permits only 1 drawer to open at a time. Drawers have full-extension ball-bearing slides. The file drawer(s) accommodate side-to-side and front-to-back filing of letter-, legal, and A4-size hanging files. Connect™ power distributors with modular ends are ordered and installed separately.

Actual powered credenza widths are $47\frac{3}{4}$ ", $59\frac{3}{4}$ ", $65\frac{3}{4}$ ", or $71\frac{3}{4}$ "; actual depth is $19\frac{7}{8}$ ".

Notes

For additional product options, see Vary Easy Program in Appendices. Arc pull option (A.) conforms to guidelines of Americans with Disabilities Act (ADA).

Grain direction is vertical on veneer and wood-grain laminate fronts. Open side of credenza includes 1 adjustable shelf that adjusts in $1\frac{1}{4}$ " increments.

Credenza with 4"-high foot option (4) and $\frac{3}{8}$ " thin top can be used to support a Canvas wall-based frame. Order support bracket, low credenza-to-frame (FT292.) separately.

When using credenza to support 1 end of a surface, order 1 of the following products separately:

- Surface support, low credenza, adjustable height (FT299.)
- Surface support, low credenza, fixed height (FT298.)

To cover adjacent credenzas with a single top, specify credenzas with no top option (NT) and order credenza top (FM890.) separately.

Order optional metal credenza shelf (FM892.) separately.

To provide temporary guest seating on a credenza, order cushion top (FF891.) separately.

Order the following products separately:

- Connect - S310 electrical unit with connect modular connection (Y1329.)
- Connect - power entry, 4-circuit (Y1351.)
- Connect - junction block to junction block jumper, 4-circuit (Y1353.)
- Connect - H-block connector, 4-circuit (Y1354.H)

Powered credenzas must be ganged together.

For keyed-alike locks, see Keyed-Alike Information in Appendices.

Product Information

Description

This powered credenza provides enclosed filing and storage and can be used freestanding, to support 1 end of a surface, or attached to a Canvas wall-based frame to support a frame run. It has a $\frac{3}{8}$ "-high laminate or veneer top and a painted steel case with a painted, laminate, or veneer front. The credenza is available with 4"-high architectural feet with 1" leveling glides and has a positive interlock system that permits only 1 drawer to open at a time. Drawers have full-extension ball-bearing slides. The file drawer(s) accommodate side-to-side and front-to-back filing of letter-, legal, and A4-size hanging files. Connect™ power distributors with modular ends are ordered and installed separately. Actual powered credenza widths are $59\frac{3}{4}$ " , or $71\frac{3}{4}$ " ; actual depth is $19\frac{7}{8}$ " .

Notes

For additional product options, see Vary Easy Program in Appendices.

Arc pull option (A.) conforms to guidelines of Americans with Disabilities Act (ADA).

Grain direction is vertical on veneer and wood-grain laminate fronts.

60"-and 72"-wide credenzas have 2 box drawers and 2 file drawers.

Credenza with 4"-high foot option (4) and $\frac{3}{8}$ " thin top can be used to support a Canvas wall-based frame. Order support bracket, low credenza-to-frame (FT292.) separately.

When using credenza to support 1 end of a surface, order 1 of the following products separately:

- Surface support, low credenza, adjustable height (FT299.)
- Surface support, low credenza, fixed height (FT298.)

To cover adjacent credenzas with a single top, specify credenzas with no top option (NT) and order credenza top (FM890.) separately.

To provide temporary guest seating on a credenza, order cushion top (FF891.) separately.

Order the following products separately:

- Connect - S310 electrical unit with connect modular connection (Y1329.)
- Connect - power entry, 4-circuit (Y1351.)
- Connect - junction block to junction block jumper, 4-circuit (Y1353.)
- Connect - H-block connector, 4-circuit (Y1354.H)

Powered credenzas must be ganged together.

For keyed-alike locks, see Keyed-Alike Information in Appendices.

Powered Metal Low Credenza, Doors with Drawers

FMP74A
FMP74K

Product Information

Description

This powered credenza provides enclosed filing and storage and can be used freestanding, to support 1 end of a surface, or attached to a Canvas wall-based frame to support a frame run. It has a $\frac{3}{8}$ "-high laminate or veneer top and a painted steel case with a painted, laminate, or veneer front. The credenza is available with 4"-high architectural feet with 1" leveling glides and has a positive interlock system that permits only 1 drawer to open at a time. Drawers have full-extension ball-bearing slides. The file drawer(s) accommodate side-to-side and front-to-back filing of letter-, legal, and A4-size hanging files. Connect™ power distributors with modular ends are ordered and installed separately. Actual powered credenza widths are $47\frac{3}{4}$ ", $59\frac{3}{4}$ ", or $71\frac{3}{4}$ "; actual depth is $19\frac{7}{8}$ ".

Notes

For additional product options, see Vary Easy Program in Appendices. Arc pull option (A.) conforms to guidelines of Americans with Disabilities Act (ADA).

Grain direction is vertical on veneer and wood-grain laminate fronts. Credenza with 4"-high foot option (4) and $\frac{3}{8}$ " thin top can be used to support a Canvas wall-based frame. Order support bracket, low credenza-to-frame (FT292.) separately.

When using credenza to support 1 end of a surface, order 1 of the following products separately:

- Surface support, low credenza, adjustable height (FT299.)
- Surface support, low credenza, fixed height (FT298.)

To cover adjacent credenzas with a single top, specify credenzas with no top option (NT) and order credenza top (FM890.) separately.

Order optional metal credenza shelf (FM892.) separately.

To provide temporary guest seating on a credenza, order cushion top (FF891.) separately.

Order the following products separately:

- Connect - S310 electrical unit with connect modular connection (Y1329.)
- Connect - power entry, 4-circuit (Y1351.)
- Connect - junction block to junction block jumper, 4-circuit (Y1353.)
- Connect - H-block connector, 4-circuit (Y1354.H)

Powered credenzas must be ganged together.

For keyed-alike locks, see Keyed-Alike Information in Appendices.

Support Bracket, Low Credenza-to-Frame

FT292.

Product Information

Description

This bracket attaches between a Canvas wood or metal credenza and a frame. It allows the credenza to attach parallel or perpendicular to the frame, providing support to a frame run in place of a return wall or work surface support.

Notes

Bracket attaches credenza with no gap or with a 1" gap from the front of the frame to allow room for cords and cables.

Support bracket attaches to low credenza with 4" foot and thin top only. Support bracket also attaches to back of a 60" wide or wider low credenza where 2 units are joined.

Support bracket orientation (left or right) is determined by the frame orientation as you are facing the frame. Credenza can be attached parallel or perpendicular to a frame. Bracket attaches to the back left or back right of the low credenza.

Product Information

Description

This credenza provides enclosed filing and storage and can be used freestanding or to support 1 end of a surface. It has a $\frac{3}{8}$ "-high or $1\frac{1}{4}$ "-high laminate or veneer top with a laminate or veneer case. It is available with 4"-high architectural feet, 4"-high sleeveless architectural feet or a $2\frac{1}{4}$ "-high base with 1" leveling glides and has a positive interlock system that permits only 1 drawer to open at a time. Drawers have full-extension ball-bearing slides. The file drawer(s) accommodate side-to-side and front-to-back filing of letter-, legal, and A4-size hanging files.

Actual credenza widths are $29\frac{7}{8}$ ", $35\frac{7}{8}$ ", $41\frac{7}{8}$ ", $59\frac{3}{4}$ ", or $71\frac{3}{4}$ "; actual depth is $19\frac{7}{8}$ ".

Notes

For additional product options, see Vary Easy Program in Appendices. Arc pull option (A.) conforms to guidelines of Americans with Disabilities Act (ADA).

Grain direction is vertical on veneer and wood-grain laminate fronts. 30", 36", and 42"-wide credenzas have 1 box drawer and 1 file drawer.

60"-and 72"-wide credenzas have 2 box drawers and 2 file drawers.

Credenza with 4"-high foot option (4) and $\frac{3}{8}$ " thin top can be used to support a Canvas wall-based frame. Order support bracket, low credenza-to-frame (FT292.) separately.

When using credenza to support 1 end of a surface, order 1 of the following products separately:

- Surface support, low credenza, adjustable height (FT299.)
- Surface support, low credenza, fixed height (FT298.)

$1\frac{1}{4}$ " top (o6 and o7) is not removable and cannot be used to support a Canvas wall-based frame. The $1\frac{1}{4}$ " top will add $\frac{5}{8}$ " to overall height of unit.

Please note that on the 4" sleeveless architectural foot (5) glides will be more visible.

To cover adjacent credenzas with a single top, specify credenzas with no top option (NT) and order credenza top (FF890.) separately.

To provide temporary guest seating on a credenza, order cushion top (FF891.) separately.

For keyed-alike locks, see Keyed-Alike Information in Appendices.

Product Information

Description

This credenza provides drawer storage on 1 side with open storage on the other side and can be used freestanding or to support 1 end of a surface. It has a $\frac{3}{8}$ "-high or $\frac{1}{4}$ "-high laminate or veneer top with a laminate or veneer case. It is available with 4"-high architectural feet, 4"-high sleeveless architectural feet or a $2\frac{1}{4}$ "-high base with 1" leveling glides and has a positive interlock system that permits only 1 drawer to open at a time. Drawers have full-extension ball-bearing slides. The file drawer accommodates side-to-side and front-to-back filing of letter-, legal, and A4-size hanging files.

Actual credenza widths are $47\frac{3}{4}$ ", $59\frac{3}{4}$ " or $71\frac{3}{4}$ "; actual depth is $19\frac{7}{8}$ ".

Notes

For additional product options, see Vary Easy Program in Appendices.

Arc pull option (A.) conforms to guidelines of Americans with Disabilities Act (ADA).

Grain direction is vertical on veneer and wood-grain laminate fronts.

Open side of Credenza includes 1 adjustable shelf that adjusts in $\frac{1}{4}$ " increments.

Credenza with 4"-high foot option (4) and $\frac{3}{8}$ " thin top can be used to support a Canvas wall-based frame. Order support bracket, low credenza-to-frame (FT292.) separately.

When using credenza to support 1 end of a surface, order 1 of the following products separately:

- Surface support, low credenza, adjustable height (FT299.)
- Surface support, low credenza, fixed height (FT298.)

To cover adjacent credenzas with a single top, specify credenzas with no top option (NT) and order credenza top (FF890.) separately.

$\frac{1}{4}$ " top (o6 and o7) is not removable and cannot be used to support a Canvas wall-based frame. The $\frac{1}{4}$ " top will add $\frac{5}{8}$ " to overall height of unit.

Please note that on the 4" sleeveless architectural foot (5) glides will be more visible.

Order optional wood credenza shelf (FF892.) separately.

To provide temporary guest seating on a credenza, order cushion top (FF891.) separately.

For keyed-alike locks, see Keyed-Alike Information in Appendices.

Product Information

Description

This credenza provides enclosed filing and storage and can be used freestanding or to support 1 end of a surface. It has a $\frac{3}{8}$ "-high or $1\frac{1}{4}$ "-high laminate or veneer top with a laminate or veneer case. It is available with 4"-high architectural feet, 4"-high sleeveless architectural feet or a $2\frac{1}{4}$ "-high base with 1" leveling glides and has a positive interlock system that permits only 1 drawer to open at a time. Drawers have full-extension ball-bearing slides. The file drawer accommodates side-to-side and front-to-back filing of letter-, legal, and A4-size hanging files.

Actual credenza widths are $47\frac{3}{4}$ ", $59\frac{3}{4}$ " or $71\frac{3}{4}$ "; actual depth is $19\frac{7}{8}$ ".

Notes

For additional product options, see Vary Easy Program in Appendices. Arc pull option (A.) conforms to guidelines of Americans with Disabilities Act (ADA).

Grain direction is vertical on veneer and wood-grain laminate fronts. Storage compartment with door(s) includes 1 adjustable shelf that adjusts in $1\frac{1}{4}$ " increments.

Credenza with 4"-high foot option (4) and $\frac{3}{8}$ " thin top can be used to support a Canvas wall-based frame. Order support bracket, low credenza-to-frame (FT292.) separately.

When using credenza to support 1 end of a surface, order 1 of the following products separately:

- Surface support, low credenza, adjustable height (FT299.)
- Surface support, low credenza, fixed height (FT298.)

To cover adjacent credenzas with a single top, specify credenzas with no top option (NT) and order credenza top (FF890.) separately.

$1\frac{1}{4}$ " top (06 and 07) is not removable and cannot be used to support a Canvas wall-based frame. The $1\frac{1}{4}$ " top will add $\frac{5}{8}$ " to overall height of unit.

Please note that on the 4" sleeveless architectural foot (5) glides will be more visible.

Order optional wood credenza shelf (FF892.) separately.

To provide temporary guest seating on a credenza, order cushion top (FF891.) separately.

For keyed-alike locks, see Keyed-Alike Information in Appendices.

Support Bracket, Low Credenza-to-Frame

FT292.

Product Information

Description

This bracket attaches between a Canvas wood or metal credenza and a frame. It allows the credenza to attach parallel or perpendicular to the frame, providing support to a frame run in place of a return wall or work surface support.

Notes

Bracket attaches credenza with no gap or with a 1" gap from the front of the frame to allow room for cords and cables.

Support bracket attaches to low credenza with 4" foot and thin top only. Support bracket also attaches to back of a 60" wide or wider low credenza where 2 units are joined.

Support bracket orientation (left or right) is determined by the frame orientation as you are facing the frame. Credenza can be attached parallel or perpendicular to a frame. Bracket attaches to the back left or back right of the low credenza.

Canvas Office Landscape® Wood Case Bookcases and Towers

Bookcase Hutch, Storage Attached

FV454.

Product Information

Description

This bookcase hutch attaches onto a Canvas wood low or high credenza surface with $1\frac{1}{4}$ " top to provide open or enclosed storage. It is available in 2 heights: 57" high and 68" high. 16"-wide and 24"-wide hutches have a single door hinged left or right; 30", 36"- and 42"-wide hutches have symmetrical doors. Bookcase hutch doors have touch latches and optional locks.

Notes

Align like components next to like units: Finished case units with other finished case units, thin top units with other thin top units, $2\frac{1}{4}$ " base storage units with other $2\frac{1}{4}$ " base storage, and 4" foot storage with other 4" foot storage.

Hutch width must match width of lower storage unit with $1\frac{1}{4}$ " top.

Hutch case is available in laminate or veneer; doors in laminate, veneer, or back-painted glass; $\frac{3}{8}$ " thin top in laminate or veneer.

Glass doors are back-painted and writable with dry-erase marker. Glass doors cannot lock.

Grain direction is vertical on veneer, wood-grain, and patterned laminate case and fronts.

Storage compartment has adjustable shelves that adjust in $1\frac{1}{4}$ " increments.

Hutch matches style of wood overhead storage in FV43 series.

Hutch is available with a finished case top (T), $\frac{3}{8}$ "-thick laminate top (3), and $\frac{3}{8}$ "-thick veneer top (4). The hutch with finished case top aligns with the top of the bead on a frame attached tile. Adding a thin top increases overall height of hutch $\frac{1}{2}$ ".

Actual case depths are $14\frac{3}{4}$ " (15) and $19\frac{7}{8}$ " (20).

- 15" deep (15) matches depth of overhead storage unit (FV43x).

- 20" deep (20) matches depth of Canvas lower storage components

Actual case widths are $15\frac{5}{8}$ " (16), $23\frac{7}{8}$ " (24), $29\frac{7}{8}$ " (30), $35\frac{7}{8}$ " (36), and $41\frac{7}{8}$ " (42).

- $15\frac{5}{8}$ " wide (16) matches Canvas wood pedestal drawer body.

Shelves vary based on height and base attachment option:

57" low credenza ($2\frac{1}{4}$ " base and 4" foot) — 2 adjustable shelves

57" high credenza ($2\frac{1}{4}$ " base) — 1 adjustable shelf

68" low credenza ($2\frac{1}{4}$ " base and 4" foot) — 3 adjustable shelves

68" high credenza ($2\frac{1}{4}$ " base) — 2 adjustable shelves

Dimensional illustration does not include all possible configurations.

Program Overview

The Stain-to-Match program gives you the option of using veneer finishes that are not listed in the standard offering. The program allows Herman Miller to match a customer's existing recut or natural veneer, or create a new finish that is unique to an installation.

Specific information on approval, ordering, pricing, and warranty for the Stain-to-Match program is listed below. Questions and requests for assistance may be directed to Herman Miller Options at:
(800) 654 3910

2. Within 7-10 working days, Herman Miller Options will send a sample of the color-matched stain on Herman Miller veneer to the requester for the customer's signed approval.
3. If the sample meets the customer's approval, sign the reverse side of the sample, scan and email the approval to:
options@hermanmiller.com.
4. After the stain has been approved, a formal quotation with special number and pricing can be provided, or the product can be specified through the Vary Easy program, if available. Work with the Options team on final product needs and how to specify.
5. A purchase order can then be placed.

Vary Easy Program

Program Overview

Vary Easy is a program designed to help dealers specify standard products with a larger breadth of options. For example, depending on the type of product being specified, choices include additional size, finish, edge types, and cable management features. Vary Easy 3D, specIT, and third-party text-based specification packages support the Vary Easy program. Vary Easy 3D enables designers to create a 3D image, CAD symbols, and a price book page. A Vary Easy product number is assigned for each product as the user selects specific options. Once the product is completely specified, the order can be submitted via Kiosk's Order Manager or a dealer's business system.

Accessing and Specifying Vary Easy

To view the full product vocabulary, go to the Vary Easy Product Offering on Kiosk. To specify Vary Easy, go to the Vary Easy 3D website on Kiosk, specIT, or your third-party text-based specification package.

Once you've made your product line selection, continue to follow through each option and enter the specific options that represent the product you need. When the product is fully specified, Vary Easy will generate an orderable product number and instantly calculate a price.

Note: Failure to completely specify a product will cause a delay in order acknowledgements. Be sure to make a selection for all options offered.

The acknowledgement process for Vary Easy products is the same as for any standard order. Vary Easy products ship with a standardized lead time and are competitively priced.
