

CPU Supports

Space is shrinking and so are central processing units (CPUs). But organizations can't afford to adopt smaller CPUs everywhere. Putting the CPU on the floor brings problems like tripping hazards, damage from cleaning crews, and bad ventilation that can trim the life of the device. So we've designed a number of ways to get more room on the desktop without resorting to putting the CPU on the floor. Our designs allow people to position the CPU in ways that give them more legroom and sliding tracks rotate to let people access the back of the CPU and its connections (which also helps with maintenance and software upgrades).

Benefits

- **Jaw CPU Holder**
"Floats" under the desk surface for improved aesthetics
- **Loop CPU Support**
Frees up desk space
- **CPU Holder**
Reclaims desk space while still providing access to CPU
- **Mobile CPU Holder**
Mobility for easy access and adaptability

Warranty

12-year, 3-shift

CPU Supports

Key Features

Jaw CPU Holder

- Quality Aluminum**
High-quality aluminum makes the Jaw holder strong and durable.
- Slide-and-Rotate Kit**
With the slide-and-rotate kit, the support can be easily moved back for increased legroom.
- CPU Dimensions**
The Jaw holds a CPU that weighs up to 55 pounds, and measures 11.5–20 inches high and 3.5–9.5 inches wide.
- Simple Design**
The designers at Colebrook Bosson Saunders gave the Jaw an elegant design and sleek profile that enhances the look of any workplace.
- Secure Clamping**
Clamping function of the aluminum body grips tightly to the top and bottom of the CPU to secure it in place.

Loop CPU Holder

- Nylon Strap**
The strap is made of strong and lightweight nylon webbing.
- Durable Base**
The base is made from high-quality engineering plastics.
- CPU Dimensions**
The Loop holds a CPU that weighs up to 44 pounds, and measures 9.5–19.75 inches high and 3.125–9 inches wide.
- Slide-and-Rotate Kit**
Colebrook Bosson Saunders designed the Loop with a slide-and-rotate kit, so the support can be easily moved back for increased legroom.

CPU Holder

- Two Orientations**
The CPU holder mounts under a surface and can hold a CPU vertically or horizontally.
- Slides and Swivels**
It's easy to access connections because the holder slides out 11.5 inches and swivels 360 degrees.
- CPU Dimensions**
It supports CPUs that weigh up to 75 pounds and with a maximum outside dimension of 64 inches.

Mobile CPU Holder

- Orientation**
The holder supports the CPU in a vertical position.
- Foam Pads**
Foam pads protect the CPU.
- Expandable**
To accommodate CPUs of different widths, the holder expands from 6.5 to 9.5 inches.
- CPU Weight**
The holder supports CPUs that weigh up to 60 pounds.

Details

Jaw CPU Holder

Height* 11.5–20"
Width* 3.5–9.5"

*Fits CPUs in this size range

Loop CPU Support

Height* 9.5–19.75"
Width* 3.125–9"

*Fits CPUs in this size range

CPU Holder

Width 4.875"
Depth 11"

Mobile CPU Holder

Height 10"
Width 6.5–9.5"
Depth 12"
