# Introduction

## A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

### Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

### Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

### The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.

The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

## General Information

This book is effective September 3, 2019, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit [www.HermanMiller.com](http://www.HermanMiller.com).

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest  $\frac{1}{8}$ ". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

### 20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon  will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an  are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

# Cosm Work Chair

FLC14  
FLC15  
FLC16

## Product Information

### Description

This work chair has sophisticated ergonomic design that instantly responds to your body, movement, and posture to provide natural balance and total support. It is available in various back heights, height-adjustment ranges, and arm options. The high back chair provides total back support including upper-thoracic support. Mid back chair provides support up to the scapular region, and low-back chair fosters collaboration and casual movements through the wrap top.

The Auto-Harmonic tilt is the first adjusting tilt from Herman Miller. The tilt gives each sitter individual support and a balanced recline that lets the body naturally pivot at the ankles, knees and hips.

Any back height can be paired with any arm option. Arm options include no arms, a fixed nonadjustable arm, a height-adjustable arm, and the innovative leaf arm. Height-adjustable arm moves 4.4" vertically. Leaf arm is nonadjustable and supports your elbow while also clearing the work surface due to the angled arm position.

The chair has one hue from top to bottom—nightfall, glacier, or canyon. It is also available in graphite, carbon, and mineral. Any color of the Intercept suspension material can be paired with any frame color.

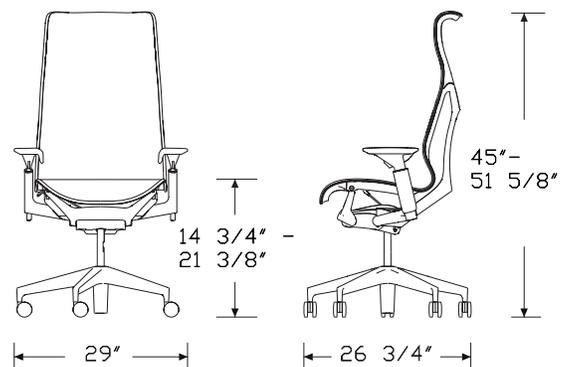

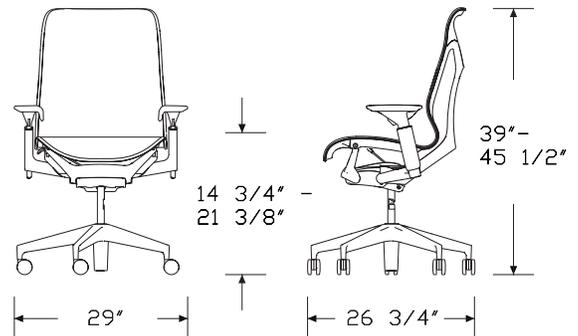

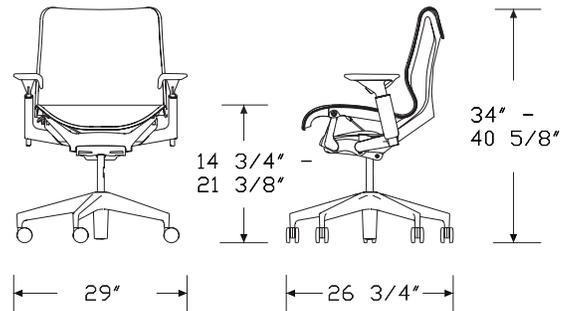

### Notes

Height-adjustable arms are only available on chair with graphite, carbon, or mineral frame.

Chair is tested and warranted for use by persons 350 pounds and under. For information on casters and glides, see Casters and Glides in appendices.

As with any material or textile, dye transfer may occur on seating surfaces, being more noticeable on lighter color expressions (for example: mineral on Aeron®, fog on Mirra® 2). If this is a concern, we recommend selecting a darker color expression on which dye transfer will be less noticeable. As a reminder, dye transfer is not covered under the Herman Miller warranty.

# Cosm Work Stool

FLC74  
FLC75

## Product Information

### Description

This work stool has sophisticated ergonomic design that instantly responds to your body, movement, and posture to provide natural balance and total support. It is available in various back heights, height-adjustment ranges, and arm options. Mid back stool provides support up to the scapular region, and low-back stool fosters collaboration and casual movements through the wrap top.

The Auto-Harmonic tilt is the first adjusting tilt from Herman Miller. The tilt gives each sitter individual support and a balanced recline that lets the body naturally pivot at the ankles, knees and hips.

Any back height can be paired with any arm option. Arm options include no arms, a fixed nonadjustable arm, a height-adjustable arm, and the innovative leaf arm. Height-adjustable arm moves 4.4" vertically. Leaf arm is nonadjustable and supports your elbow while also clearing the work surface due to the angled arm position.

The stool has one hue from top to bottom—nightfall, glacier, or canyon. It is also available in graphite, carbon, and mineral. Any color of the Intercept suspension material can be paired with any frame color.

### Notes

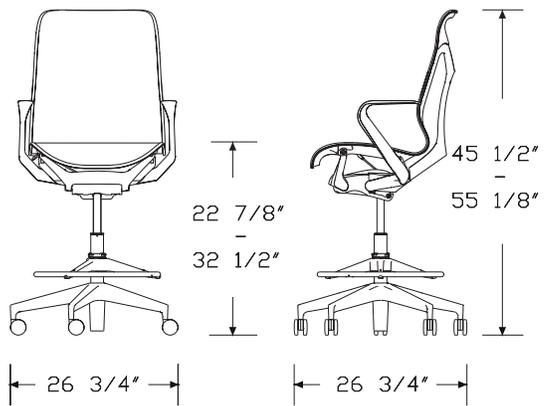

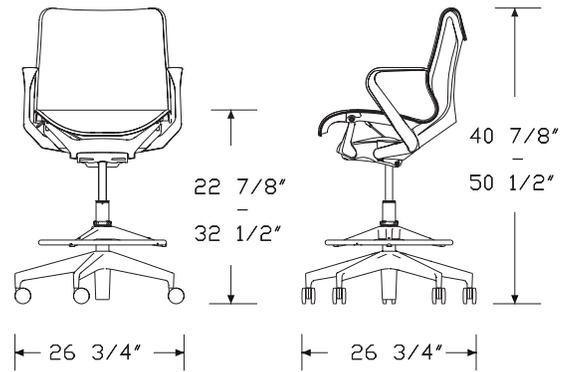

Height-adjustable arms are only available on stool with graphite, carbon, or mineral frame.

Stool is tested and warranted for use by persons 350 pounds and under. 20"-diameter footrest adjusts 4 1/2" in height. Footrest available in trivalent chrome. Column and ring are black.

For information on casters and glides, see Casters and Glides in appendices.

As with any material or textile, dye transfer may occur on seating surfaces, being more noticeable on lighter color expressions (for example: mineral on Aeron®, fog on Mirra® 2). If this is a concern, we recommend selecting a darker color expression on which dye transfer will be less noticeable. As a reminder, dye transfer is not covered under the Herman Miller warranty.

Cosm Work Stool, Dipped in Color      FLC84  
 FLC85

**Product Information**

**Description**

This work stool has sophisticated ergonomic design that instantly responds to your body, movement, and posture to provide natural balance and total support. It is available in various back heights, height-adjustment ranges, and arm options. Mid back stool provides support up to the scapular region, and low-back stool fosters collaboration and casual movements through the wrap top.

The Auto-Harmonic tilt is the first adjusting tilt from Herman Miller. The tilt gives each sitter individual support and a balanced recline that lets the body naturally pivot at the ankles, knees and hips.

Any back height can be paired with any arm option. Arm options include no arms, a fixed nonadjustable arm, a height-adjustable arm, and the innovative leaf arm. Height-adjustable arm moves 4.4" vertically. Leaf arm is nonadjustable and supports your elbow while also clearing the work surface due to the angled arm position.

The stool has one hue from top to bottom—nightfall, glacier, or canyon. It is also available in graphite, carbon, and mineral. Any color of the Intercept suspension material can be paired with any frame color.

**Notes**

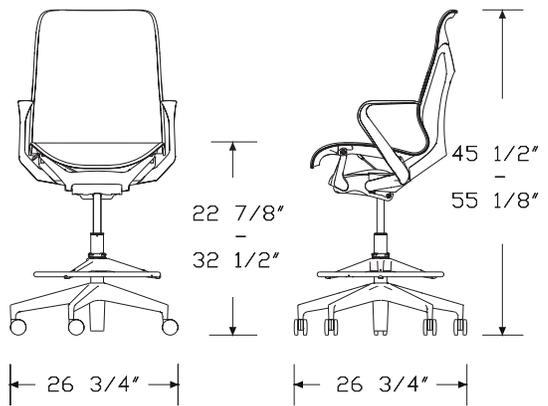

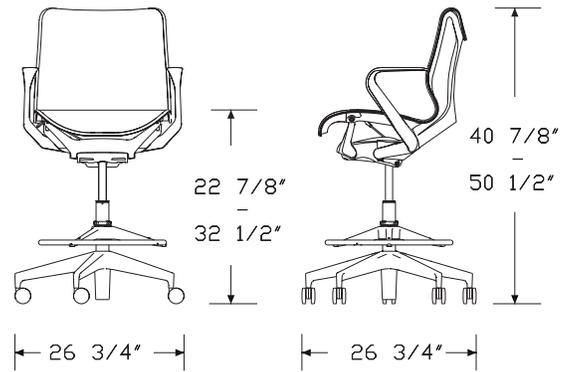

Height-adjustable arms are only available on stool with graphite, carbon, or mineral frame.

Stool is tested and warranted for use by persons 350 pounds and under. 20"-diameter footrest adjusts 4 1/2" in height. Footrest available in trivalent chrome. Column and ring are black.

For information on casters and glides, see Casters and Glides in appendices.

As with any material or textile, dye transfer may occur on seating surfaces, being more noticeable on lighter color expressions (for example: mineral on Aeron®, fog on Mirra® 2). If this is a concern, we recommend selecting a darker color expression on which dye transfer will be less noticeable. As a reminder, dye transfer is not covered under the Herman Miller warranty.

**Product Information**

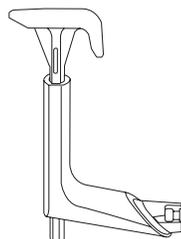

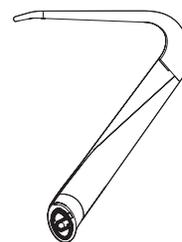

**Description**

These arms can be retrofitted to a Cosm™ work chair. Kit is available with fixed arms, height adjustable arms, or leaf arms. Fixed arm has a height of 8.6" from seat to top of arm. Height adjustable arm moves 4.4" vertically, from 7.3" to 11.7" above seat. Leaf arm is a fixed height arm with an angled suspension rest designed to support the elbow. Arm components are preassembled.

# 20-Day or Less/Assigned Lead-Time Order Information

## 20-Day or Less and Assigned Lead-Time Programs

20-day or less and assigned lead-time products are designed for established Herman Miller dealers with pre-approved credit.

Products are distributed from multiple manufacturing facilities across the United States. All products and options not designated by an Assigned Lead-Time icon **A** will ship in 20 business days or less after being acknowledged by Herman Miller. Products and options designated by an **A** are on the assigned lead-time program and will ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

## Ordering Procedure

Please place orders through Order Manager. If this is not available to you, place orders through mail or fax. Verbal purchase orders will not be accepted.

Order Entry fax number for Passage®, 5000 Series, and Meridian® Filing and Storage: (616) 846 9236.

Order Entry fax number for all other products:  
(616) 654 3085.

For more information, contact your Customer Care representative at:  
(866) 854 3048 EXT 3400.

## Shipments and Delivery

Per Herman Miller Terms and Conditions.

## Changes and Cancellation

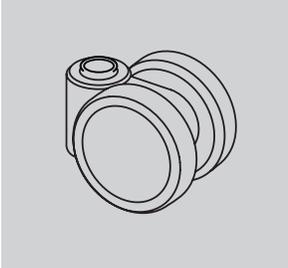

Per Herman Miller Terms and Conditions.

# Casters and Glides

▲	<b>WARNING</b>	▲
Depending on the floor surface, chair may unexpectedly roll away from user when entering or exiting the chair, possibly leading to unexpected injury. Please refer to descriptions of floor types when selecting casters.
