Eames® Wire Chairs Outdoor

Designer

Charles and Ray Eames

Original Production Date

2017

Warranty

3 years

Experiments in bent and welded wire in the 1950s led Charles and Ray Eames to design a wire version of their single-shell form. Sturdy but lightweight, Eames Wire Chairs are available in powder-coat finishes that are suitable for outdoor use. This classic form continues to be versatile and adaptable to a range of spaces.
