

Lolly Personal Light

As compact as it is useful, the Lolly Personal Light is an elegant source of long-lasting light—everything you need and nothing you don't on a work surface. With four dimming settings and a tilting head, shine light where—and how you need it for work. And because it's lightweight, you can move it around as needed too. The enduring, high-powered LED light is touch-sensitive and powers off after four hours of inactivity. With its slim profile and useful design, Lolly helps create an inviting workspace.

Benefits

- Points light exactly where you need it, at a comfortable level for your eyes
- Easy charging with standard ports for USB Type-A and Type-C devices
- High-powered, long-lasting LED light for clear and efficient illumination

Warranty

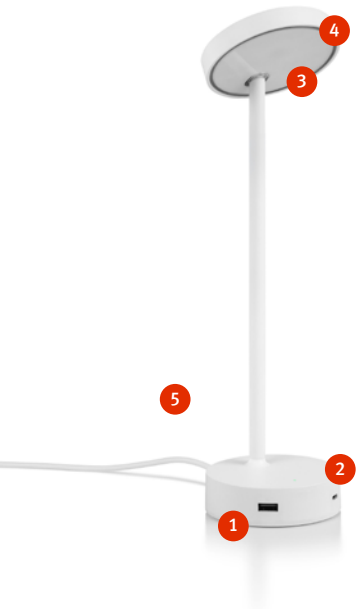

5-years
