A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table. The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

General Information

This book is effective September 3, 2019, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www. HermanMiller.com.

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest ½". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

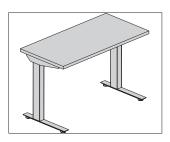

20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon <a> a will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an A are on the assigned leadtime program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Adjustable Height Tables

Sit-to-Stand Table Bases

Product Information

Description

This rectangular height-adjustable table has a C-leg configuration and laminate top with square thermoplastic edge or a laminate top with a thermoplastic backed plywood edge. It comes with a simple up/down switch for height adjustment. Glides have $\frac{1}{2}$ " leveling range. Shipped knocked down. Product is UL Listed.

Notes

Sizes listed for table depth and width are nominal. Depth of surface is reduced 1" for cord management. Width of surface is reduced 2" to minimize possible pinch point hazards.

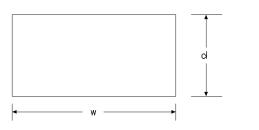

Legs are nearly flush with sides of the surface for maximum knee clearance.

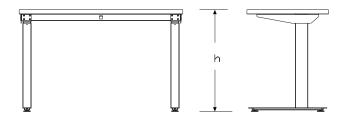

Table cross beam acts as the stiffener and provides a small cavity for cable management.

Tables 48"-60" wide do not need a cross beam; tables 66" wide and 72" wide require a cross beam.

Floor to top-of-surface height adjustment range is $28^{1}/2"-47^{3}/8"$ for the electric standard range (E) option, and $22^{1}/2"-48^{1}/2"$ for the electric extended range (D) option.

Product Information

Description

This rectangular height-adjustable table has a T-leg configuration and laminate top with square thermoplastic edge or a laminate top with a thermoplastic backed plywood edge. It comes with a simple up/down switch for height adjustment. Glides have $^{1}/_{2}$ " leveling range. Shipped knocked down. Product is UL Listed.

Notes

Sizes listed for table depth and width are nominal. Depth of surface is reduced 1" for cord management. Width of surface is reduced 2" to minimize possible pinch point hazards.

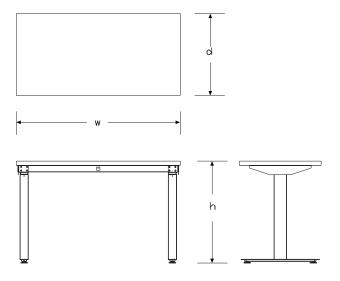

Legs are nearly flush with sides of the surface for maximum knee clearance.

Table cross beam acts as the stiffener and provides a small cavity for cable management.

Tables 48".60" wide do not need a cross beam; tables 66" wide and 72" wide require a cross beam.

Floor to top-of-surface height adjustment range is $28^1/2^{"}-47^3/8^{"}$ for the electric standard range (E) option, and $22^1/2^{"}-48^1/2^{"}$ for the electric extended range (D) option.

Product Information

Description

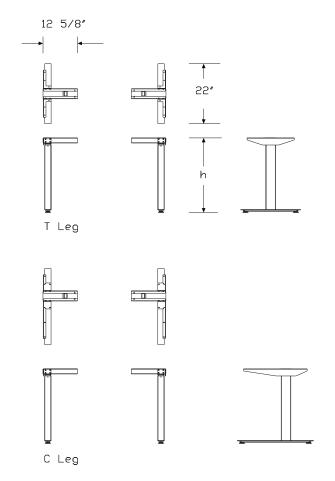

This independent 2-leg kit converts existing work surfaces into height adjustable tables. Legs come in 2 depths and multiple widths with a simple up/down touch switch. Glides have 1/2" of leveling range. Shipped knocked down. Product is UL Recognized.

Notas

Worksurface stiffener does not come with base kit. Order stiffener (FV696.) separately.

Height range of the electric standard range (E) option is $27^{1/4}$ "- $46^{1/8}$ ", and of the electric extended range (D) option is $22^{1/2}$ "- $48^{1/2}$ ". Range does not include thickness of worksurface.

20-Day or Less/Assigned Lead-Time Order Information

20-Day or Less and Assigned Lead-Time Programs

20-day or less and assigned lead-time products are designed for established Herman Miller dealers with pre-approved credit.

Products are distributed from multiple manufacturing facilities across the United States. All products and options not designated by an Assigned Lead-Time icon $\boxed{\mathbb{A}}$ will ship in 20 business days or less after being acknowledged by Herman Miller. Products and options designated by an $\boxed{\mathbb{A}}$ are on the assigned lead-time program and will ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Ordering Procedure

Distribution Rights

Working together since 1956, Herman Miller and Vitra are the authentic sources of designs by Charles and Ray Eames, Alexander Girard, and George Nelson. All the designs shown in this book are protected by law. Herman Miller has obtained all rights to make and sell these designs. Also, Herman Miller holds exclusive worldwide manufacturing and distribution rights for these products with the following exceptions:

Charles and Ray Eames, George Nelson, and Alexander Girard—Worldwide distribution rights for furniture in all areas except Europe and the Middle East. For those areas, please contact Vitra.

Isamu Noguchi—Worldwide distribution rights for the Noguchi Rudder Table. Distribution rights for the Noguchi Table in North America and Central America only. For all other areas, please contact Vitra.

Magis—Exclusive distribution rights in the US and Canada. For all other areas, please contact Magis.

Mattiazzi — Exclusive distribution rights in the US and Canada. For all other areas, please contact Mattiazzi.
