Multiple Seating

Multiple & Tandem Seating

Palisade

Multiple Seating

Palisade Multiple Seating communicates a sense of place for guests. It scales from small to large arrangements and can be configured for a variety of public interiors. Screens subdivide a setting to offer privacy or help direct traffic. Integrated power access makes it convenient for visitors to stay connected. Wheelchair-accessible booths and Easy Seating options, which help ease the transition between sitting and standing, extend the welcome to those who might otherwise find it difficult to find comfort in waiting.

Easy Access Plus Chair

Integrated power modules offer easy access to power.

A Wipe-out design is a visible gap between seat cushions and arm panels that allows for thorough, efficient cleaning.

Solid surface arm cap (shown) provides long-term durability and design versatility.
