

SOFT EDGE 10

DESIGN BY ISKOS-BERLIN

Made possible by exploring innovative developments in molded plywood techniques, Iskos-Berlin's Soft Edge chair blends strong curves with extreme lightness to create a three-dimensionality that is not normally possible with 2D plywood. The ultra-thin, soft-formed back and seat are free of sharp edges, embracing the body and providing human-centric comfort for constant movement. The chair features a steel tube frame with light, stackable qualities, making it suitable for a wide range of public and private environments – from classrooms and cafés to the home.

PRODUCT DETAILS

- / Part of a family of dining chairs, bar stools and stools with steel base or solid oak legs or polypropylene seat and back with steel base.
- / 3-dimensional form based on the latest developments in molded plywood technique using ordinary plywood.
- / Variability of seat and base colors and finishes.
- / Suitable for a wide variety of private and public environments.
- / Qualified for contract use.
- / Available with seat upholstery in selected fabrics.
- / Stackable up to 10 pcs. without upholstery.
- / Stackable up to 6 pcs. with upholstery.

HAY
