

Maximum Workspace Utilization

Computers are getting smaller every day. Unless CPUs are stored properly, they can be difficult to access and can take up valuable floor or worksurface space. The adjustable CPU Mini Cradle easily and securely stores smaller CPUs within reach, yet out of the way.

IM#: 15-0008305

CPU MINI CRADLE STYLE #CPUMINI

- New smaller-format CPU support
- 10" track attached to the underside of the worksurface for ease of storage and accessibility
- c:scape® and FrameOne™ compatible
- Spring force height adjustment: 9.6" – 15.7"
- Width adjustment: 2.5" – 5"
- 360° rotation
- Supports CPUs up to 15 lbs

STATEMENT OF LINE

SURFACE MATERIALS

Surface materials shown in brochure:

- 0835 Black/Aluminum
(Aluminum column with rubber protective pads)

Color is representative and may vary slightly from actual material.

SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

Research and insights direct our path. It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

Innovative products and solutions result. In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.
