Stackable Chairs

Stackable chairs offer flexibility and ease of use in classrooms, auditoriums, or wherever extra seating is required.

- Max-Stacker III 477 Series
- Player 475 Series
- Leg-Base Chairs

Max-Stacker III 477 Series

Max-Stacker III is a stacking chair perfect for high traffic areas. With a new texture and an updated finish offering, it fits into any environment.

Tablet arms and bookracks are available factory or field installed.

Shell is available in flexible, contoured plastic.

Two-piece wire-rod frame is 7/16" diameter carbon steel for strength and durability.

Plastic glides are standard. Soft felt glides, optional, are recommended for use on non-carpeted floors.

Product Details

Four configurations are available—chairs without arms, chairs with bookracks, chairs with tablet arms, and chairs with a combination of bookrack and tablet arm.

Max-Stacker III can stack up to 12 chairs high when stacked on the floor.

Tablet arms provide a writing surface that is 12½"D x 11⅜"W. They are available in left- or right-hand models.

Clearance between tablet arm and seat is 7¼"H. Tablet arm tilts for easy entrance and exit from chair.

Bookrack is available factory or field installed for convenient storage of notebooks and purses.

Transport and storage dolly is available to stack, move, and store up to 45 chairs. Chairs with book-racks and tablet arms cannot be stacked.

Unloaded transport dolly measures 55"D x 22"W x 37½"H.

Fully loaded transport dolly measures 57"D x 22"W x 68½"H.

Without transport dolly stack can be up to 12 chairs high.

Alignment device is available to temporarily link chairs together in the field for evenly spaced rows. Chairs can be unlinked easily. Spacing between chairs linked with alignment device is 2¼".

Surface Materials

► See surface materials on page 638 for specific availability or refer to the *Surface Materials Reference Manual* for further information.
