### Multi-Use Chairs

**Multi-use chairs** are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Player 475 Series
- Move 490 Series
- Snodgrass 474 Series

# Move 490 Series

**Move chairs** are guest chairs that also stack. Live dynamic seat, open cantilever arm design, light weight, and strength make Move a logical choice for multipurpose areas. Move's simple design complements a broad range of work settings.

**Arms** are cantilevered and will easily clear the front edge of a worksurface or table. The open cantilever design of the arms allows alternative postures and sitting positions.

**Steel frame** is monochromatic.

**Seat and back** are available in plastic or with an upholstered cushion.

**Plastic glides** have a hard plastic insert.

**Upholstered back** is available on selected styles.

**Casters** have hard, dual wheels that roll smoothly on carpets. Soft, dual-wheel casters are available for use on hard floor or chair mats. Casters are available in black only.

*Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

## Product Details

**Chairs and stools** have a leg-base and are available with glides or casters, and with or without arms.

**Stackability for leg base chair models** is five high on the floor. Stools do not stack.

**Plastic glides with hard plastic inserts** are recommended for carpeted surfaces.

**Soft felt glides for use on non-carpeted surfaces** are available as an option.

**Transport and storage dolly** is available to stack, move, and store up to 10 chairs.

**Unloaded transport dolly** measures 58½"D x 25½"W x 37½"H.

**Fully loaded transport dolly** measures 58½"D x 25½"W x 58½"H.

**Ganging and alignment device** is available to link leg-base chairs together in the field for evenly spaced rows. Chairs can be separated easily. Spacing between chairs linked with alignment device is 4" for chairs with no arms and 7" for chairs with arms.

**Move wall saver** is available to prevent the back of the chair from making contact with the wall.

## Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

## Select Surfaces

**For information on products within Select Surfaces**, including accent paints, Signature plastics, and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit [www.steelcase.com/selectsurfaces](http://www.steelcase.com/selectsurfaces).

## Custom Surfaces

### The Customer's Own Material (COM)

**Program** offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit [www.steelcase.com](http://www.steelcase.com)

**Soil retardants** are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to [lineone@steelcase.com](mailto:lineone@steelcase.com).

### Fire Codes

► See page 658 for upholstery fabrics available for use with FCS modification.

**Steelcase** offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

**Local codes** may have special requirements for upholstery.
