- Move 490 Series
- Snodgrass 474 Series

# Player 475 Series

**Player** chairs are guest chairs that also stack. Strength features in the back, arms, and back legs make Player a logical choice for high-traffic areas, and its simple, classic design complements a broad range of work settings.

**Arms** slope downward and will easily clear the front edge of a worksurface or table. Arms are available in smooth or textured finish.

**Steel frame** is monochromatic.

**Plastic glides with a hard plastic insert** are standard.

**Back and seat**, including outer back, are fully upholstered. High-back and thick-seat options are available.

**Casters** have hard, dual wheels that roll smoothly on carpets. They are 2" in diameter for increased mobility. Soft, dual-wheel casters are available for use on hard floor or chair mats. Casters available in black only.  
*Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

## Product Details

**Chair models** are available with a leg-base or a sled-base. Stools are available with a leg-base. The leg base arms are available with casters. Chairs and stools are available with several features such as arms, tablet arms, high back, and thick seat.

**Stackability** for leg-base models is six high on the floor and eight high on the transport and storage dolly. Leg-base models with casters are not recommended to stack as damage to arms may occur. Sled-base models, stools, and chairs with tablet arms will not stack.

**High-back option**, available on all Player chairs and stools, adds 2½" to back height. Top edge is slightly rounded. Stackability is not affected.

**Thick-seat option**, available on all Player chairs and stools, increases the thickness of the seat cushion by approximately 1/2". Stackability is not affected.

**Tablet arm** is available right hand and left hand and is shipped knocked down (K.D.). Tablet arm tilts for easy entrance and exit from chair. Tablet arm measures 25 1/2" x 13 1/2". Tablet arm is not available to order separately for installation on existing chairs.

**Plastic glides**, with hard plastic inserts on leg-base Player chairs, are recommended for carpeted surfaces only.

**Soft felt glides** are available on Player chairs for non-carpeted surfaces.

**Alignment device** is available to temporarily link chairs together for evenly spaced rows. Chairs can be unlinked easily. Spacing between chairs linked with alignment device is 5 7/8".

**Ganging device** is available to link chairs on a more permanent basis. It attaches to the chair's side frame. Spacing between chairs linked with the ganging device is approximately 9".

**Transport and storage dolly** is available to stack, move, and store up to eight chairs with or without arms. Without the dolly, chairs will stack up to six high. Sled-base models, stools, and chairs with tablet arms will not stack.

**Fully loaded transport dolly** measures 32 3/4"D x 25 1/2"W x 55 3/4"H.

## Surface Materials

## Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

### The Customer's Own Material (COM)

**Program** offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit [www.steelcase.com](http://www.steelcase.com)

**Soil retardants** are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.
