

CRADLE TO CRADLE CERTIFIED™ BRONZE SPECIFICATION SHEET

CERTIFICATION PERIOD: SEPTEMBER 8, 2016 - SEPTEMBER 7, 2018

POST AND BEAM

Post and Beam is an architectural framework that allows you to configure a range of work environments. The flexible design of Post and Beam allows for a breadth of work settings within a given space, all of which have the same cohesive architectural look. If you have a customer who would like to create Cradle to Cradle Certified™ Bronze architectural framework, you can use a variety of components as part of the Post and Beam solution.

THE EXCEPTIONS ARE AS FOLLOWS:

CABINETS

- Glass doors
- Edgebands that are not PVC-free, see list below of approved edgeband finishes

WORKSURFACES

- Laminate – limited finishes, see list next page of approved laminates
- Edgebands that are not PVC-free, see list next page of approved edgeband finishes
- Screen Clamps
- Open Line Laminate (OLL) Program laminates, see list next page of approved laminates

SHELVING

- Straight shelf package
- Task lights
- Shelves (Style Numbers: BDS30, BDS36, BDS32, BDS48)

POWER

- PVC version
- Pass-through or termination hubs

PANEL FABRICS

- Customer Own Materials (COM's)
- Vinyl

Any product modifications ordered through Specials do not qualify.
