## Work Chairs

**Highly adjustable task seating** offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

# Reply 466 Series

**Reply** is a global family of value-friendly seating designed with unexpected extras.

**Back frame and seat shell** are plastic.

**Back height adjustment on upholstered chairs** allows you to raise or lower chair back from a seated position to support your lower back.

**Five-arm base** is plastic, a polished aluminum base is available as an option.

**Arm tube** matches the frame finish.

**Arm support** is coordinated to match the base finish.

**Dual-wheel with roll-control casters** may be used on soft and hard flooring surfaces.

**Back handle on mesh back chairs** provides a convenient handhold to easily move the chair.

**Arms**, when specified, have a textured plastic arm cap.

**Lumbar height** adjusts 4" to provide additional lower back support and is available as an option on mesh back chairs only.

**Arm depth** can retract 3" to allow user to get closer to the worksurface and into tight corners.

**Arm height** can adjust independently within a 3¾" range to help relieve upper back and shoulder fatigue.

**Arm caps** can pivot independently 18° in and 4° out to accommodate individual user preferences.

**Arm width** adjusts 1" per arm for a total of 2" overall width adjustment.

**Multi-position back lock** allows user to recline the back to the desired angle and lock it in place.

**Seat depth** adjusts within a 1½" range to accommodate users of varying leg lengths.

**Seat height** adjusts within a 5" range with a pneumatic adjustment mechanism.

**Tilt tension adjustment** allows you to control the amount of resistance needed for reclining.

**Casters** have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.

*Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

**Plastic glides** are standard. Optional soft glides are available.

## Product Details

**Synchro-tilt mechanism with a natural fluid motion on work chairs** keeps users oriented to their work.

**Fixed-height multi-use chairs** are available with or without arms.

**Cartoned** shipment of Reply work chairs is standard. Reply work chairs ship knocked down in a single carton consisting of two components: the base, pneumatic, mechanism, and seat (built up as one component), and the back with the attachment knob. This allows for shipment in a smaller carton. Leg-base multi-use chairs ship two to a carton, when applicable. Assembly by a qualified dealer installer is required for work chairs. Assembly instructions are included. No additional tools are required for assembly.

**Uncartoned** request means Reply work chairs will ship fully assembled and blanket wrapped.

**Stacking density for leg-base multi-use chairs** is six on the floor. Arms and casters do not impact the ability to stack.

## Adjustment Features

**Adjustability instructions** are included with every swivel-base chair. Instructions can also be found at [www.steelcase.com](http://www.steelcase.com).

### Seat Adjustments

**Seat height** adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5", from 16"H to 21"H.

**Seat depth** adjusts 1 1/2" by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. Seat depth is a standard feature on work chairs.

### Back Adjustments

**Lumbar height** adjusts 4" (6" to 10" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. Available as an option on mesh work chairs only.

Variable back lock (4 positions)

Upright setting

**Multiple position back lock** allows users to recline the back to the desired angle and lock it in place. To lock, recline to desired angle and push back lock handle down. To release, lean forward, lift the handle and apply pressure to the back to disengage the lock.

**Back height** adjusts 2 1/2" (23"-25 1/2") by pressing and holding the control button on the right side of the back, and sliding the back support up or down. Release the control button to lock. This feature is standard on work chairs with upholstered (non-mesh) backs only.

**Back tension** adjusts by turning knob forward to increase back tension, backward to decrease back tension. This feature is standard on all work chairs.

### Arm Adjustments

**Height-, pivot-, and depth-adjustable arms** are available as an option on Reply task chairs.

**Arm height** adjusts independently within a range of 3 3/4" (7 1/2"-11 1/4" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

**Width maintenance arms** adjust 1" each independently on chairs with this option. To adjust, loosen the screw under the arm tube and move to desired position and tighten.

**Arms** pivot 18° inward and 4° outward on models with adjustable pivot arms. Grasp arm and push front to left or right.

**Arm depth** adjusts approximately 3" to enable user to get closer to worksurface.

### Other Features

**Height-only adjustable arm** is also available and adjusts 3 3/4".

**Soft, dark grey treaded, dual-wheel roll-control casters** are available as an option for use on hard floors or mats.

**Dual-wheel roll-control casters for use on soft and hard flooring surfaces** come standard on leg-base multi-use chairs when specified with casters.

**Hard glides** come standard on multi-use chairs when specified with glides. Soft glides are available as an option.

**Surface Materials**

► See surface materials on page 638 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

**Upholstery**

- Fabric
- Fabric with soil-retardant treatment (option)
- Mesh (back only)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl

**Hard components**

Chair with swivel-base (frame, outer back, arm cap assembly, and mechanism)

- 6205 Black

Chair with swivel-base and mesh back (frame and arm tube only)

- 6053 Seagull

Chair with swivel-base (arm support and base)

- 6205 Black
- 6249 Platinum
- Polished aluminum (base only)

Chair with multi-use leg-base (outer back, and arm caps)

- 6205 Black

Chair with leg-base or sled-base (metal frame)

- 4799 Platinum
- 7207 Black

**Casters**

- 6205 Black

**Glides**

Chair with multi-use leg-base

- 6205 Black

**Sewn-upholstery models** feature a stitch detail on the sides of the seat and back cushions. Task chairs have an additional stitch across the lumbar region of the back cushion.

**Swivel-Base Models**

**Mesh back on swivel-base models** are available with a height-adjustable lumbar option to enhance back support.

**Upholstered back on swivel-base models** feature a back-height adjustment that allows you to raise or lower the chair back from a seated position to support your lower back.

**Leg-Base and Sled-Base Models**

**Mesh back frame with handle on leg-base models** provides a convenient handhold to easily move the chair.

**Upholstered backrest on leg-base models** features a plastic outer shell.

**All Steelcase seating with standard upholstery fabrics** complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

**Programs & Services**

► See *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

**The Customer's Own Material (COM) Program**

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit [www.steelcase.com](http://www.steelcase.com)

**Soil retardants** are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.
