

## Product Compliance Laboratory Confirmation of Product Compliance

5/29/2015

**Steelcase Health Folio** products have been designed, engineered, and manufactured, to meet or exceed all applicable ANSI / BIFMA (American National Standards for Office Furnishings) requirements for safety and performance.

Samples representative of current production have been tested and found to be in compliance with the following ANSI / BIFMA Test Requirements:

**ANSI/ BIFMA X 5.5 Desk /Table Products Tests**

**ANSI/BIFMA X5.9 Storage Units Tests**

In addition to the ANSI / BIFMA standards the Folio product has been tested and found to be in compliance with the following standards.

**UL 1286 Standard for Safety of Office Furnishings<sup>1</sup> (including the flammability requirement of)**

Flame Spread Index (FSI) less than 200

Smoke Developed Index (SDI) less than 450 (unless labeled "Smoke Developed Index Over 450")

**When tested to UL 723 Surface Burning Characteristic of Building Materials<sup>1,2</sup>** (ASTM E 84 or NFPA 255 test methods)

<sup>1</sup>This specification is not included in the scope of accreditation.

<sup>2</sup>Where applicable compliance to the UL standard is evidenced by UL label affixed to the product.

products have been designed, engineered, and manufactured, to meet or exceed all applicable **ANSI / BIFMA (American National Standards for Office Furnishings)** requirements for safety and performance.

Samples representative of current production have been tested and found to be in compliance with the following ANSI / BIFMA Test Requirements:

Steelcase uses its own ISO 9001 registered and ISO 17025 accredited laboratories, and accredited independent laboratories, to verify compliance to the Standards and requirements listed. A list of accredited independent laboratories is available upon request.

Sincerely,

Jeff Musculus – Director, Global Testing, Codes & Approvals

**Note:**

This document may be reproduced in full only.

Steelcase products are designed and tested for code and standard compliance when installed and used as an integrated product solution in accordance with Steelcase application guidelines and assembly directions. The use of unauthorized non-Steelcase components, parts, or materials with integrated Steelcase product solutions **VOIDS** all Steelcase claims of product compliance to BIFMA, UL, CSA, LEED, and / or any office furniture safety or performance standards, including all building, fire, and electrical codes. This exclusion includes but is not limited to the use of non-Steelcase panel supported work surfaces, leg supports, panels, brackets, shelves, overhead bins, and other integral components. The use of non-Steelcase components in an integrated product solution not designed, tested, or supported, by Steelcase is an unauthorized modification of the original product which voids all Steelcase warranties, expressed or implied.
