

# Composites™

## Guest Seating

Composites seating is an elegant, as well as practical, family of integrated wood chairs that transcends traditional, contemporary, and transitional environments. Featuring a chair frame that is available in a variety of back and arm styles, as well as stackable and stool designs, Composites offers seating that complements just about any environment. Use Composites anywhere—from private offices and conference rooms to reception and hospitality spaces, even dining areas and lunch counters.

HAWORTH®

## Transcending the Traditional

Composites offers a family of elegant wood seating solutions for today's collaborative and social spaces. Slim lines and a low profile make Composite chairs a perfect fit for any space. Five back and four arm designs offer complementary looks for a wide range of aesthetics—from classic and timeless, to contemporary and modern. Stackable chairs in this versatile family store easily when not in use, while armless stools provide solutions for counter-height seating.

## Features

The maple hardwood construction of the Composites seating family stands up to all kinds of usage, while its breadth of design options brings a welcoming warmth and character to a variety of temporary spaces.

**User comfort is built in** – Pads are made from precision molded foam on a webbed panel.

**Quality craftsmanship** – Mortise-and-tenon joinery, double dowel construction, and cross-blocked corners ensure durability.

**Harmonizes with any environment** – Select from a variety of Haworth standard wood finishes or match your own with custom finishing.

**Easy storage** – Stackable chairs save space by stacking four-high and come with protective bumpers to help prevent scratches.

**High-top seating** – Armless stools feature a brass kickplate, and furnish attractive seating for standing-height counters and tables.

## Colors, Materials, Finishes

Composites is offered in the full range of Haworth finishes and can be specified to match individual customer requirements. In addition, Haworth's entire selection of fabrics and leathers are also available.
