## Features and Specifications

### Lounge Chair, Settee, and Sofa

The frame is exposed steel, available painted or in a chrome finish. The seat cushions are reversible and filled with high density foam and polyester fiber over strip webbing.

### Connecting Elements

White satined acrylic plexiglass, which can be added on to individual lounge pieces, or used to conjoin multiple lounge chairs, settees, or sofas.

## Additional Notes

Textile crispness will be influenced by the amount of stretch in each textile. Some textiles will stretch more than others, resulting in a small amount of material pooling. This can be addressed by running a hand across the surface to smooth the material.

m\_sit tables compliment m\_sit seating.
