Features and Specifications

Lounge Chair, Settee, and Sofa

The seat structure is comprised of high density foam and polyester fiber over 3" (76mm) wide strip webbing. The back is made of high density foam and polyester fiber over pasted kraftex board. The chairs and sofas are fully upholstered. The legs are steel, painted or chrome, with black plastic glides.

Benches

The seat structure is comprised of high density foam and polyester fiber over 3" (76mm) wide strip webbing. The benches are fully upholstered. The legs are steel, painted or chrome, with black plastic glides.

Additional Notes

Textile crispness will be influenced by the amount of stretch in each textile. Some textiles will stretch more than others, resulting in a small amount of material pooling. This can be addressed by running a hand across the surface to smooth the material.

q_bic tables compliment q_bic seating.
