

q_bic by Haworth

Markus Denstädt | 1998

Classic q_bic tables are available in three versions. Low rectangular wood tables come in a choice of veneers. A double-tiered, square model adds a clear glass top that seems to float over the wood surface. Another q_bic table features a glass top supported by a steel frame. Legs and frames are finished to match q_bic seating. They partner well in lounges, waiting areas, libraries, and meeting spaces.
