A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table. The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

This book is effective April 1, 2019, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest 1/8". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Product Information

Description

This rectangular height adjustable table has a T-leg configuration and laminate top with square thermoplastic edge, laminate top with thermoplastic backed plywood edge or veneer top and edge. Multiple height adjustment options come with a simple up/down touch switch, simple up/down paddle switch or with no switch to accommodate adding Live Platform™ to the table. Glides have 1/2" leveling range. Work surface stiffener included. Shipped knocked down. Product is UL Listed.

Notes

Floor to top-of-surface height adjustment ranges are 27"-46" for the electric standard range (E) option, and 22"-48" for the electric extended range (D) option.

Sizes listed for table depth and width are nominal. Depth of surface is reduced by 1" for cord management. Width of surface is reduced 2" to minimize possible pinch point hazards.

When no under-surface mounted storage (L2SCF., L2SDF.) is used, specify legs outbound (1) location.

To use under-surface mounted storage (L2SCF., L2SDF.) on both ends of the surface, specify legs inbound for under surface storage on both ends (2) location.

To use under-surface mounted storage (L2SCF., L2SDF.) on the right- or left-hand end of the surface, specify legs inbound for under surface storage on left or right end (3) location. This will make the table handed. Surface will come with inbound leg holes; the outbound leg holes will need to be field drilled.

Table includes stiffener.

When specifying cable trough (2, 3), trough finish will match table base finish.

When specifying a power access cutout (RC, LC, CC), Logic Mini unit (Y1414.) and grommet (Y1412.) must be ordered separately.

When specifying a 24"D x 54"W table with legs inbound for under surface storage on both ends (2) option, the hinged cable trough option is not available. It is recommended to use the (Y1200.48N) cable trough, ordered separately.

Order the following optional products separately:

- Vista modesty + privacy screen-double sided, height adjustable table (Y1130.)
- Vista modesty screen-double sided, height adjustable table (Y1131.)
- Suspended cubby (L2SCF.)
- Suspended drawer (L2SDF.)

Vary Easy is a program designed to help dealers specify standard products with a larger breadth of options. For example, depending on the type of product being specified, choices include additional size, finish, edge types, and cable management features. Vary Easy 3D, specIT, and third-party text-based specification packages support the Vary Easy program. Vary Easy 3D enables designers to create a 3D image, CAD symbols, and a price book page. A Vary Easy product number is assigned for each product as the user selects specific options. Once the product is completely specified, the order can be submitted via Kiosk's Order Manager or a dealer's business system.

Accessing and Specifying Vary Easy

To view the full product vocabulary, go to the Vary Easy Product Offering on Kiosk. To specify Vary Easy, go to the Vary Easy 3D website on Kiosk, specIT, or your third-party text-based specification package.

Once you've made your product line selection, continue to follow through each option and enter the specific options that represent the product you need. When the product is fully specified, Vary Easy will generate an orderable product number and instantly calculate a price.

Note: Failure to completely specify a product will cause a delay in order acknowledgements. Be sure to make a selection for all options offered.

The acknowledgement process for Vary Easy products is the same as for any standard order. Vary Easy products ship with a standardized lead time and are competitively priced.
