Cornice Frames, Tops, and Bases for Bookcases
For one, two, or three storage components.
➤See page 16.28 to specify.

Exterior surfaces are cherry (plain sliced, slip matched) or walnut (plain sliced, book matched) veneer. Veneers are carefully selected and matched to assure proper balance and consistency.

Rims are solid hardwood with precisely mitered corners.

Decorative molding is available as an option. Upcharge applies.

Leveling glides adjust for uneven floors.

Drawer fronts are ¾" thick 3-ply with vertically matched grain.

Tops are 1³⁄₁₆" thick, 3-ply balanced construction. Wood grain laminate is also available.

Base rails are solid hardwood for impact and wear resistance.

Writing shelf is standard on single- and double-pedestal desks with breakfront modesty panel.

Full height pedestals have one pencil drawer, one box drawer, and one file drawer. Hardwood corner post and panel construction is reinforced with tenon and groove joinery.

Drawer sides and back are ½" thick with veneer faces. Drawer bottoms are ¼" thick. 5-sided construction allows easy removal of drawer front. Dowel joint assembly is used for maximum strength. Interiors are sealed, sanded, and finished with a clear lacquer finish to protect against swelling, shrinking, or warping and to provide a smooth feel and appearance.

Center drawer is standard on double-pedestal, single-pedestal desks, and table desks. Bottom of drawer is lined with black leather.

Centra locking is featured on double- and single-pedestal desks, credenzas and lateral files to secure all drawers in the unit with a single lock. Lock cylinders are removable if rekeying is necessary. Key random and key specific options are available.

Details

Breakfront modesty

Flush modesty

Modesty panel on double-pedestal desks are available with a breakfront or flush appearance.

Antique brass metal grommets are optional on all desks, returns, credenzas, and bridges.

Joints are securely fastened with screws, glue, and solid hardwood cleats to ensure maximum strength.

Drawer dividers are included in desks and credenzas for placement in any box drawer.

Full extension, progressive action drawer suspensions, with precision ball bearings on file drawers, provide a smooth, quiet operation. Box drawers have full extension slides with a positive stop action.

Heavy-duty filing hardware accommodates various filing requirements.
▶See page 16.7 for filing capabilities.

Related Products

Accessories, such as keyboard drawer, adjustable keyboard products, and visual boards available to add functionality to workspaces.

Wood and Laminate

Surface Materials

Statement of Line	➤See page 16.2
Planning	16.4
Pricing	16.8
Surface Materials	16.29

➤See the *Kimball Surface Materials Reference Guide* at www.kimball.com for a complete overview of the Kimball materials program, including:
• Characteristics of wood
• Special wood finishes
• Customer-specified laminate (CSL)
• Customer-specified paint (CSP)
• Fabric application and colorways
• Customer's own material (COM) overview
• Alliance program
• TB133 process

IMPORTANT: Wood finishes applied to solid hardwood are complementary to the same wood finish applied to wood veneer, but not an exact match.
➤Contact Customer Service for more information.

IMPORTANT: Woodgrain laminate is a commercially compatible match to the wood finish of the same name and designator with consideration for the most common application—laminate surfaces on a wood chassis. When laminate and wood are mixed in other applications, the flip that occurs naturally in veneer may influence the overall match from piece to piece.
