

# TopLab<sup>PLUS</sup>

## Color Delivery Program

### Design your own colored worktop!

The TopLab<sup>PLUS</sup> color range gives the opportunity to design an attractive and pleasant working environment. However, we would like to offer you the opportunity to specify a color of your own choice. With adequate lead-time, customized project/client colors are available where panel requirement exceeds 12000 ft<sup>2</sup> per color. (Please contact your local Trespa sales office)

#### Standard unidecor delivery program:

Panel sizes:	120" x 60" (3050 x 1530 mm) 100" x 73" (2550 x 1860 mm)
Type:	colored on one side, black on the other side
Surface structure:	Crystal Matte on decor side: Crystal matte is a very fine surface structure with a matte sheen, recommended for horizontal applications. Satin on back side
Quality	Standard /black core
Panel thicknesses:	1/2" (13 mm) 5/8" (16 mm) 3/4" (20 mm) 1" (25 mm)

### TopLab<sup>PLUS</sup> double sided!

TopLab<sup>PLUS</sup> is also available with an integrated decorative surface on both sides, in panel size 120" x 60" (3050x1530mm). This goes for both the unidecors as well as the speckles. This service product widens the design possibilities and offers you chemical and mechanical strength on those areas where it is needed on both sides. Shelves, compartments ... with TopLab<sup>PLUS</sup> a workstation can be tailored to your specific needs and still meet all the requirements of a laboratory.

#### Standard speckle delivery program:

Panel sizes:	120" x 60" (3050 x 1530 mm) 100" x 73" (2550 x 1860 mm)
