sentinel™

Our Purpose Is To Enrich Outdoor Spaces

We believe in the power of design and its ability to influence and elevate the quality of public space. High quality products and outstanding customer experience makes us one of the world's premier designers and manufacturers of outdoor commercial furnishings.

Sentinel Bollard Specifications

Sentinel bollard: cast aluminum sleeve mounts over supplied 6" structural steel pipe and secures with concealed hardware. Mitre or dome top available. Mitre top available with or without LED light. Light is protected by high temperature polyurethane lens. Bollard may be specified to embed or surface mount for all styles. All metal is finished with Landscape Forms' proprietary Pangard™ II polyester powdercoat.

Sentinel Security Sleeve: constructed of cast aluminum and designed specifically for mounting over 10" pipe (not supplied). Hardware to secure sleeve to pipe is included.

Finishes

All metal is finished with Landscape Forms' proprietary Pangard II polyester powdercoat, a hard yet flexible finish that resists rusting, chipping, peeling, and fading. Call for standard color chart.

To Specify

Select Sentinel bollard: Specify mitre or dome top. Specify mounting: embedded, surface mount or removable. For embedded or surface mount with mitre top choose with or without LED light (U.S. or Euro). Select powdercoat color.

Select Sentinel Security Sleeve: Specify powdercoat color.

Sentinel is not your old guard.

It is a totally twenty-first century bollard designed to compliment contemporary landscapes and architecture. Two variations on sculptural form offer versatility in function. Standard-size mitre and dome designs, mounted on 6" diameter structural pipes, provide handsome border demarcation and separation of pedestrian and vehicular traffic. Wired lighting features state-of-the-art lighting class LED. The Sentinel Security Sleeve is intended for serious security applications. This large dome-style bollard is greater in mass and height than the standard version and is designed specifically for mounting over a 10" pipe built to US Department of State specifications.

Metal is the world's most recycled material and is fully recyclable. Consult our website for recycled content for this product. Powdercoat finish on metal parts contains no heavy metals, is HAPS-free and has extremely low VOCs.
