## Material / Colors

### Powdercoated Metal

Powdercoated Metal Pangard II® Polyester Powdercoat is a hard, yet flexible, finish that resists rusting, chipping, peeling and fading. In addition to colors shown, a wide selection of optional and custom colors may be specified for an upcharge. Please note, the Loll Designs Powdercoat colors are only available standard with Harvest, Glide & Americana.

\* All colors and patterns shown are approximate and may vary from sample and final.

### Polyethylene

Polyethylene Rotationally-molded polyethylene is produced by tumbling polyethylene powder in a mold under heat. The material provides strong structure with integral color that stands up to heavy use and is easily cleaned. Aggregate colors are subject to an upcharge.

\* All colors and patterns shown are approximate and may vary from sample and final.
