Painted metal combined with laminate worksurfaces create practical and spectacular results. Blend woodgrain, solid, or patterned laminates with the sleekness of metal to deliver a captivating and enduring aesthetic. WaveWorks offers solutions that are ideal for private offices, open plan spaces, and shared work areas.

Storage components and worksurfaces can be attached to our Exhibit wall rail solution, maximizing the wall surface and further demonstrating WaveWorks' flexibility. Exhibit™ allows WaveWorks worksurfaces and storage to be positioned anywhere along the rail. Tackable and marker board inserts, along with the Exhibit rail, can be field scribed to create a custom fit without the additional expense of millwork. Utilizing Exhibit creates a light, airy aesthetic while providing easy access to electrical and data.

CREATE FUNCTIONAL SPACES THAT IMPRESS.

Accommodate all industries and organizations with the WaveWorks collection. From welcoming first impressions in the reception area to open plan spaces, this comprehensive solution offers the flexibility to outfit an entire organization. Add metal mobile pedestals in any space for additional storage and a comfortable place for guests to sit while having a quick conversation. A variety of storage components, worksurface shapes and sizes, and drawer configurations allows you to design WaveWorks to achieve the exact functionality you need.
