Approach™ Laminates & Edges

Allsteel laminates provide a durable, decorative, and easily maintained surface for office furniture and feature a smooth surface.

Cleaning

General soil may be wiped clean with warm water and mild detergent, ammonia-based glass cleaner, or commercial laminate cleaner. Rinse with clean water and dry with a soft cloth. Do not use cleaners that contain abrasives or aggressive acids or alkalis, as these may damage the protective surface. Special instructions are available for removing more difficult soil and stains. Please contact your Allsteel Dealer or Allsteel Customer Support.

Ordering

For order accuracy, specify the laminate or worksurface edge name and Allsteel color code. Example: Designer White LDW1

Sampling

Although the laminate and worksurface edge colors reproduced on this card were matched with care, they may vary from the actual finish. When color is critical, please obtain a physical sample.
