MINERAL STONE

STONESOURCE

Ductile®

The Wall Slab Evolution

Thanks to the tiles' new chemical formula, they can easily be precision cut or drilled. Standard drill bits and cutting discs and less complex tile adhesives can be used with Ductile®, cutting tile-laying costs and saving on time.

A Ductile® Piece

Ductile® Composition

Lighter
Thanks to their slimline 6mm thickness and new formula.

Swifter
Their new formula offsets surface stress, making any cutting work much swifter and cleaner.

Easier
The tiles ductile properties make them easy to lay, avoiding the need for expensive tile adhesives.

Eco-friendlier
Due to the big reduction in emissions from the manufacturing and transport processes.

MINERAL STONE

Mediterranean Stone in Ceramics

The light and beautiful design of MINERAL STONE transmits the serenity of the Mediterranean Sea, as it is inspired by and represents the richness of the warm coastal land. The firm personality of the stone merges with the light design of watery areas, to present a balanced proposal. Thanks to the variety of formats that MINERAL STONE presents, up to 48"x106" and 36"x106", and the extensive chromatic range composed of three natural shades, this series becomes essential within the Contemporary Mixtures Surfaces set due to its versatility and modulation possibilities.
