flex

A seating family of unrivalled modularity...

## flex

A remarkable sitting machine lies beneath these smooth and harmonious lines. The exceptional choice of backrests, arms and mechanisms available with this collection lets you personalize your chair according to your tastes and needs.

## flex

The variety of tasks and the morphology of the users demand individual solutions. Opting for the FLEX Group means having a choice between passive flexibility and total ergonomic support, between the comfort of sleigh-base seating or a high-back armchair, between a swivel-tilt seat with fixed back and complete adjustability that allows independent adjustment of seat and back.

...with all the comfort of passive flexibility

## flex mono

In its monoshell version, the FLEX chair dresses-up to show you its best features. With the celebrated comfort of the A.D.I. Suspension technique and the new articulated seat option, the FLEX mono remarkably combines distinction and comfort.

## flex mono

Be an exceptional host with the FLEX mono chairs. Invite your guests to sit in true comfort with this monoshell version, ideal for conference rooms, training spaces and guest areas.

With removable slip covers, change decor in a breeze.

## small, medium and large seat sizes

Choose between three seat sizes that vary in width and in depth.
