

stacking and guest chairs

c a t

CAT, the PURRRfect chair. It sits in waiting rooms and rest areas, attends conferences, training sessions and lectures. It gathers informally around cafeteria and bistro tables and coddles up to 20 high in a cart and rolls away when not needed. Its adaptability, famous suspension, comfort and slick feline look make it a truly exceptional chair.

g o l f

GOLF is a playful, molded plywood, stackable chair that will rejuvenate and energize any conference space, guest area, cafeteria or training room. Add a touch of creativity and swing to your environment by choosing refreshing colors or shades. GOLF is designed to follow the natural curves of your body. Fun and comfort: what are you waiting for...Tee off!

m i n i f l e x

Mini size, maxi versatility. The stackable MINIFLEX is a universal chair, or just about: upholstered in fabric or vinyl, it features optional armrest, handling grip and flipping writing tablet. It is available on 4 legs or a sleigh base. This wonderfully light and practical chair fits in almost any setting.

miniPLY

Single or stacked, MINIPLY is great all on its own and so practical in company! The molded plywood shell is softly curved to support the human form, yet sturdy enough to withstand the effects of time and rough handling.

MINIPLY is available in natural maple and other finishes, including a multitude of lacquered shades.

stack them and roll them... it's as simple as that.

h i g h m o b i l i t y

All ADI stackable chairs can be moved about using a highly manoeuvrable cart that can hold up to 20 chairs for compact, practical storage.
