A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.

The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

General Information

This book is effective February 3, 2025, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest 1/8". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon  will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an  are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Nevi™ Link Sit-to-Stand Bench

Nevi Link Back-to-Back Rectangular Height Adjustable Bench DY2AS.

Product Information

Description

This rectangular back-to-back bench is a 2-workstation unit that can be used in back-to-back height adjustable benching applications in series with other Nevi™ Link back-to-back benches to create a run. Each workstation comes in a squared-edge style and has options for laminate top with thermoplastic edge or laminate top with thermoplastic backed plywood edge. There are multiple height adjustment, wire management, and switch options. Glides have 1/2" of leveling adjustment. Shipped knocked down. Product is UL Listed.

Notes

Floor-to-top-of-surface height adjustment ranges are 27"-46" for the electric standard range (EE) option and 22"-48" for the electric extended range (DD) option.

To power bench applications, specify the following components separately:

- Power entry (DU1351)
- Power entry, New York City (DU1352)
- Junction block to Junction block jumper (DU1353)
- Duplex receptacle (DU1355)
- Junction block (DU1358.DBB)

Sizes listed for table depth and width are nominal. Depth of surface is reduced 1" for cord management. Width of surface is reduced 1" to minimize possible pinch point hazards between benches.

Cutouts are specified for both tables. If table 1 and table 2 need different cutout locations, specify no cutout (NC) and field cut to desired location.

Power access cutouts are specifically sized for Logic Mini (Y1414.).

For linear bench sections, the NYC Power Entry (DU1352.08) can only fit, and must be installed in, 60"-wide and wider sections. For 120° bench sections, the NYC Power Entry (DU1352.08) can only fit, and must be installed in, 54"-wide and wider sections.

Nevi Link 120 Degree Height Adjustable Bench

DY3AS.

Product Information

Description

This 120° back-to-back bench is a 3-workstation unit that can be used in back-to-back height adjustable benching applications in series with other Nevi™ Link back-to-back benches. Each workstation comes in a squared-edge style and has a laminate top with thermoplastic edge. There are multiple height adjustment, wire management, and switch options. Glides have ½" of leveling adjustment. Shipped knocked down. Product is UL Listed.

Notes

Floor-to-top-of-surface height adjustment ranges are 27"-46" for the electric standard range (EEE) option and 22"-48" for the electric extended range (DDD) option.

To power bench applications, order Connect™ separately. See planning guide for details. Up to 4 duplexes per station.

Sizes listed for table depth and width are nominal. Depth of surface is reduced 1" for cord management. Width of surface is reduced 1" to minimize possible pinch point hazards between benches.

When specifying height adjustable range (EEE or DDD), all 3 tables will be the same range (standard or extended).

For linear bench sections, the NYC Power Entry (DU1352.08) can only fit, and must be installed in, 60"-wide and wider sections. For 120° bench sections, the NYC Power Entry (DU1352.08) can only fit, and must be installed in, 54"-wide and wider sections.

Single End Cap - Basic Cable Trough DY4EF.

Product Information

Description
This cover plate creates a clean and finished aesthetic at the end of a run. Finishes are available to match the base finishes of Nevi™ Link benches. Product is UL Listed.

Notes
End Caps-Basic Cable Trough are for use with height adjustable benching solutions with the basic cable trough (BCT) wire management option. For height adjustable benching solutions with the enhanced cable trough (ECT) wire management option, see the End Caps-Enhanced Cable Trough (DU4B, DU4S.).
For back-to-back applications, specify end cap-2 per box (EC) option. End caps are placed on each end of the run.
For 120° applications, specify 1 option of 2 per box (EC) and 1 option of 1 per box (EF) for a total of 3 end caps.

Nevi™ Link Sit-to-Stand Bench

Product Information

Description

This screen provides privacy between workstations and can create privacy and boundary from adjacent work areas. Installed height of all screen tops is 46". Screens are tackable fabric, laminate, or glass. Attachment hardware included.

Notes

Finish for glass screen hardware is always anodized (AN).

Back to back screen (BB) to be used with back to back bench applications.

Gallery screens (BG, SG) to be used on the end of back to back or single sided bench applications, respectively, and in conjunction with end of run gallery panels (DU9R.).

For use with boundary gallery panel (DU9B.) in single sided applications, specify single sided boundary gallery screen (SG). Single sided gallery (DU8x.SG) and single sided boundary (DU8x.SB) screens do not work with Nevi™ Link.

Screen accepts Customer's Own Material (COM). Yardage is estimated for nondirectional 54"-wide fabrics.

For vertical fabric direction (T):

Application-Width—Yardage

SG24—1.45

SG30—1.45

SB48—1.45

BG48—1.45

BB48—2.14

For horizontal fabric direction (R):

Gallery Panel

DU9B.
DU9R.

Product Information

Description
This gallery panel creates a finished and polished look to end of run or single sided applications. It also creates boundary for a single sided bench and an adjacent work space or aisle. The panel is laminate with thermoplastic edge, laminate with universal edge, or veneer with veneer edge. Edges are square. Glides have 1/2" of leveling adjustment.

Notes
For end of run application, specify end of run panel (DU9R.).
For single sided application on back side of work surface, specify single sided boundary panel (DU9B.). Single sided boundary gallery panel (DU9x.B) does not work with Nevi™ Link.
When specifying 29" gallery panel with inserts to be used with 17"-high fabric screen (Pari or flat edge), overall combined height will align with trough-mounted screens at 46" high. Order 17"-high fabric screen separately.
Grain direction is vertical on veneer, wood-grain and directional laminates.
Wood-grain and directional laminates are not available on 66"-72" wide gallery panels and are not a recommended application when using ZZ open line wood-grain or directional laminates.

Product Information
Description
This power entry connects a building's electrical from a wall, floor, or column to the end of a 4-circuit junction block and distributes up to 4 20-amp circuits. UL Listed for use with Renew™ Link and Nevi™ Link in the US and Canada.
Notes
Renew Link modular power products are only compatible with other Renew Link modular products, or with Connect™ 4-circuit modular components. Note that the UL listing for Renew Link is no longer applicable when connecting Renew Link power to Connect power.
Power entry can be field cut to the appropriate length.
For San Francisco, specify 3/8" flex metallic conduit option (C).
Finish color on liquid tight conduit is black. Finish color on metallic conduit is silver.
A licensed electrician must wire the power entry to the building's electrical system.

Connect™-Power Entry, 4-Circuit,
New York City

DU1352

Nevo™ Link Sit-to-Stand Bench

Product Information

Description

This power entry connects a building's electrical from a wall, floor, or column to the end of a 4-circuit junction block and distributes up to 4 20-amp circuits. It includes a junction box and harness. It is UL Listed for use with Renew™ Link and Nevo™ Link in the US and Canada.

Notes

Renew Link modular power products are only compatible with other Renew Link modular products, or with Connect™ 4-circuit modular components. Note that the UL listing for Renew Link is no longer applicable when connecting Renew Link power to Connect power.

Power entry comes with an 8" harness.

A licensed electrician must wire the power entry to the building's electrical system.

For linear bench sections, the NYC Power Entry (DU1352.08) can only fit, and must be installed in, 60"-wide and wider sections. For 120° bench sections, the NYC Power Entry (DU1352.08) can only fit, and must be installed in, 54"-wide and wider sections.

Product Information

Description

This adjustable power jumper distributes up to 4 20-amp circuits between 2 junction blocks. One end of the jumper extends an additional 3" when connecting to an adjacent junction block. It is UL Listed for use with Renew™ Link and Nevi™ Link in the US and Canada.

Notes

Renew Link modular power products are only compatible with other Renew Link modular products, or with Connect™ 4-circuit modular components. Note that the UL listing for Renew Link is no longer applicable when connecting Renew Link power to Connect power.

Finish on 5/8" oval metallic conduit is silver.

Connect™-Block Connector, 4-CircuitDU1354

Nevi™ Link Sit-to-Stand Bench

Product Information
Description
This connector connects 2 junction blocks together. Finish is black. Attachment hardware included. It is UL Listed for use with Renew™ Link and Nevi™ Link in the US and Canada.
Notes
Renew Link modular power products are only compatible with other Renew Link modular products, or with Connect™ 4-circuit modular components. Note that the UL listing for Renew Link is no longer applicable when connecting Renew Link power to Connect power.

Short Receptacle-to-Receptacle Block Connector

Connect™-Junction Block, 4-Circuit

DU1358

Product Information

Description

This junction block attaches to the electrical cross bar and accepts 4-circuit receptacles for access and distribution of up to 4 20-amp circuits. It has connection points at both ends for attaching a power entry, a 4-circuit power jumper, or block-to-block connector. Finish is black. It is UL Listed for use with Renew™ Link and Nevi™ Link in the US and Canada. Attachment bracket and hardware included.

Notes

Renew Link modular power products are only compatible with other Renew Link modular products, or with Connect™ 4-circuit modular components. Note that the UL listing for Renew Link is no longer applicable when connecting Renew Link power to Connect power.

For back-to-back applications, specify the 2-duplex block (DU1358.DB) or the 1-duplex block (DU1358.SB).

Order duplex receptacle, 4-circuit (DU1355.) separately.

To route power from building to junction block, order 4-circuit power entry (DU1351. or DU1352.) separately.

To route power between junction blocks, order junction block to junction block jumper (DU1353.) separately.

To connect 2 junction blocks together, order a short block to block connector (DU1354.S) separately.

Connect™-Duplex Receptacle, 4-Circuit

DU1355

Neve™ Link Sit-to-Stand Bench

Product Information

Description

This 15- or 20-amp duplex receptacle attaches to a junction block to provide electrical access. Finish is black. Package of 1. It is UL Listed for use with Renew™ Link and Neve™ Link in the US and Canada.

Notes

Renew Link modular power products are only compatible with other Renew Link modular products, or with Connect™ 4-circuit modular components. Note that the UL listing for Renew Link is no longer applicable when connecting Renew Link power to Connect power.
Receptacle is labeled as I, II, III, or IV for circuit identification.
Order junction block (DU1358.) separately.

Product Information

Description

This electrical distributor plugs directly into floor, wall, or ceiling drop outlets. Each module configuration presents the same visual appearance. Grommet mount attachment does not come with the mini grommet (order separately as needed). Cable clips and attachment hardware included. Product is UL listed.

Notes

Grommet mount attachment (Y1414.xxxG) does not come with the mini grommet. Order Logic mini grommet (Y1412.) separately, as needed.

Cable clips for cord management are intended for a 1-time installation.

Clamp versions can be reoriented in the field by a technician.

USB ports provide a combined 20 watts of power to charge most devices and tablets at full speed. USB-C provides 15 watts of power and USB-A provides 10 watts of power individually. When using the USB-C and USB-A ports simultaneously, USB-C remains at 15 watts and USB-A reduces to 5 watts.

Cord color is predetermined. For white (91) finish cords will be white. For graphite (G1) finish cords will be black.

Grommet mount attachment (Y1414.xxxG) does not come with the mini grommet. Order Logic mini grommet (Y1412.) separately, as needed.

Hinged Cable Trough

Y1300.

Product Information

Description

This sheet metal trough is a stand-alone cable management tray that mounts to the underside of a work surface to hold and conceal cords and cables. It can be used with a Logic Mini unit for cord storage or used alone with cords routed through the ends of the trough. Trough holds cords in place when open.

Notes

Power strip (Y1500.) is intended to be housed inside the trough for additional power access.

Hinged cable trough works best with a Motia® Vista™ height adjustable table (DV6GT.). Can be used on any other work surface that has the clearance for the overall dimensions listed below.

When specifying a 24"D×54"W table with legs inbound for under surface storage on both ends (2) option, the hinged cable trough option is not available. It is recommended to use the (Y1200.48N) cable trough, ordered separately.

Order the following products separately:

- Power strip (Y1500.)
- Logic Mini (Y1414., Y1412.)

Renew™ Link Sit-to-Stand Bench

Renew Link Back-to-Back Rectangular Height Adjustable Bench

DU2AS.
DU2AT.

Product Information

Description

This rectangular back-to-back bench is a 2-workstation unit that can be used in back-to-back height adjustable benching applications in series with other Renew™ Link back-to-back benches to create a run. Each workstation has a C-leg configuration, comes in multiple edge styles, and has options for laminate top with thermoplastic edge, laminate top with universal edge, veneer top and edge, or painted Formcoat® top and edge. There are multiple height adjustment, wire management, and switch options. Glides have 1/2" of leveling adjustment. Shipped knocked down. Product is UL Listed.

Each table can be specified with a different height adjustment mechanism. Floor to top of surface height adjustment ranges are 27"-46" for the electric standard range (E) option, 22"-48" for the electric extended range (D) option, and 28 1/2" for the fixed height table (F).

Notes

To power bench applications, specify the following components separately:

- Power entry (DU1351.)
- Power entry, New York City (DU1352.)
- Junction block to Junction block jumper (DU1353.)
- Duplex receptacle (DU1355.)
- Junction block (DU1358.DBB)

Sizes listed for table depth and width are nominal. Depth of surface is reduced 1" for cord management. Width of surface is reduced 1" to minimize possible pinch point hazards between benches.

Simple cable cover (PSC) is facility installed only.

High density cable trough (PHD) can be accessed by users for daily cord management. Available on 30" deep tables only.

Power access cutouts are specifically sized for 5 wide and 6 wide Logic G1000 grommet mounted electrical distributors (Y1425.).

For linear bench sections, the NYC Power Entry (DU1352.08) can only fit, and must be installed in, 60"-wide and wider sections. For 120° bench sections, the NYC Power Entry (DU1352.08) can only fit, and must be installed in, 54"-wide and wider sections.

MicrobeCare™ is an antimicrobial coating that can be applied to a wide variety of Herman Miller Group surfaces to protect products from mold, mildew, algae, and bacteria that cause deterioration, discoloration, odors, and stains.

MicrobeCare™ is a US Environmental Protection Agency (EPA) registered nonpublic health antimicrobial.

Renew™ Link Sit-to-Stand Bench

Product Information

Description

This bench is a 2 workstation unit that can be used in back to back height adjustable benching applications in series with other Renew™ Link back to back benches to create a run. The trapezoid shape creates individual and group work environments within a traditional benching application. Each workstation has a C-leg configuration, comes in multiple edge styles, and has options for laminate top with thermoplastic edge, laminate top with universal edge, veneer top and edge, or painted Formcoat® top and edge. There are multiple height adjustment, wire management, and switch options. Glides have 1/2" of leveling adjustment. Shipped knocked down. Product is UL Listed.

Each table can be specified with a different height adjustment mechanism. Floor to top of surface height adjustment ranges are 27"-46" for the electric standard range (E) option, 22"-48" for the electric extended range (D) option, and 28 1/2" for the fixed height table (F).

Notes

To power bench applications, specify Connect™ separately. See planning guide for details.

Simple cable cover (PSC) is facility installed only.

High density cable trough (PHD) can be accessed by users for daily cord management. Available on 30" deep tables only.

Power access cutouts are specifically sized for 5 wide and 6 wide Logic G1000 grommet mounted electrical distributors (Y1425.).

For linear bench sections, the NYC Power Entry (DU1352.08) can only fit, and must be installed in, 60"-wide and wider sections. For 120° bench sections, the NYC Power Entry (DU1352.08) can only fit, and must be installed in, 54"-wide and wider sections.

LBC	walnut on ash (CP)	+\$0
LBF	neutral twill	+\$0
LBQ	white twill	+\$0
LBU	medium matte walnut (CP)	+\$0
LU	soft white	+\$0

Top/Edge Finish

For veneer top/veneer edge (W)

2U	light brown walnut	+\$170
40	dark brown walnut	+\$170
CHD	noble cherry	+\$170
ET	clear on ash	+\$170
EU	oak on ash	+\$170
EV	walnut on ash	+\$170
EW	medium matte walnut	+\$170
UL	natural maple	+\$170
WHN	natural white oak	+\$170

Top/Edge Finish

For painted Formcoat® top/edge (P)

8Q	folkstone grey (CP)	A	+\$0
91	white (CP)	A	+\$0
LU	soft white	A	+\$0

Step 13. Edge Finish

For thermally-fused laminate top/thermoplastic edge (M) or high-pressure laminate top/thermoplastic edge (L)

125	natural maple (CP)	+\$0
126	natural cherry (CP)	+\$0
127	walnut (CP)	+\$0
139	light ash (CP)	+\$0
140	warm ash (CP)	+\$0

WL	warm stone (CP)	+\$0
WN	warm grey neutral	+\$0

Single Sided Rectangular Height Adjustable Bench

DU1AS.
DU1AT.

Product Information

Description

This rectangular single sided bench is a 1 workstation unit that can be used in single sided height adjustable benching applications in series with other Renew™ Link single sided benches to create a run. Each workstation has a C-leg configuration, comes in multiple edge styles, and has options for laminate top with thermoplastic edge, laminate top with universal edge, veneer top and edge, or painted Formcoat® top and edge. There are multiple height adjustment, wire management, and switch options. Glides have 1/2" of leveling adjustment. Shipped knocked down. Product is UL Listed.

Each table can be specified with a different height adjustment mechanism. Floor to top of surface height adjustment ranges are 27"-46" for the electric standard range (E) option, 22"-48" for the electric extended range (D) option, and 28 1/2" for the fixed height table (F).

Notes

To power bench applications, specify Connect™ separately. See planning guide for details.

Sizes listed for table depth and width are nominal. Depth of surface is reduced 1" for cord management. Width of surface is reduced 1" to minimize possible pinch point hazards between benches.

Simple cable cover (PSC) is facility installed only.

High density cable trough (PHD) can be accessed by users for daily cord management. Available on 30" deep tables only.

Power access cutouts are specifically sized for 5 wide and 6 wide Logic G1000 grommet mounted electrical distributors (Y1425.).

For linear bench sections, the NYC Power Entry (DU1352.08) can only fit, and must be installed in, 60"-wide and wider sections. For 120° bench sections, the NYC Power Entry (DU1352.08) can only fit, and must be installed in, 54"-wide and wider sections.

Single Sided Rectangular Height Adjustable Bench *continued*

WL	warm stone (CP)	A	+\$0
WN	warm grey neutral	A	+\$0

Renew™ Link 120 Degree Height Adjustable Bench

DU3AS.
DU3AT.

Product Information

Description

This back-to-back bench is a 3-workstation unit that can be used in back-to-back height adjustable benching applications in series with other Renew™ Link back-to-back benches. Each workstation has a C-leg configuration, comes in multiple edge styles, and has options for laminate top with thermoplastic edge or veneer top and edge. There are multiple height adjustment, wire management, and switch options. Glides have 1/2" of leveling adjustment. Shipped knocked down. Product is UL Listed.

Notes

Floor-to-top-of-surface height adjustment ranges are 27"-46" for the electric standard range (EEE) option and 22"-48" for the electric extended range (DDD) option.

To power bench applications, order Connect™ separately. See planning guide for details.

Sizes listed for table depth and width are nominal. Depth of surface is reduced 1" for cord management. Width of surface is reduced 1" to minimize possible pinch point hazards between benches.

Simple cable cover (PSC) is facility installed only.

High density cable trough (PHD) can be accessed by users for daily cord management. Available on 30" deep tables only. Cutouts must be placed on surface above high-density cable trough.

Power access cutouts are specifically sized for 5-wide and 6-wide Logic G1000 grommet mounted electrical distributors (Y1425.). No cutouts can be specified when the simple cable under-worksurface cable management (PSC) option is selected.

When specifying height adjustable range (EEE or DDD), all 3 tables will be the same range (standard or extended).

For linear bench sections, the NYC Power Entry (DU1352.08) can only fit, and must be installed in, 60"-wide and wider sections. For 120° bench sections, the NYC Power Entry (DU1352.08) can only fit, and must be installed in, 54"-wide and wider sections.

End Caps - Enhanced Cable Trough

DU4B.
DU4S.

Product Information

Description

These cover plates create a clean and finished aesthetic at the end of runs. Finishes are available to match the base finishes of Renew™ Link and Nevi™ Link benches. Product is UL Listed.

Notes

For single sided bench runs, specify single sided (DU4S.EC). Single sided end caps (DU4S.EC) do not work with Nevi Link. For back to back bench runs, specify back to back (DU4B.EC).

Only 1 set of end caps needed per run. End caps are placed on each end of the run.

End Caps-Enhanced Cable Trough are for use with height adjustable benching solutions with the enhanced cable trough (ECT) wire management option.

For height adjustable benching solutions with the basic cable trough (BCT) wire management option, see the End Caps-Basic Cable Trough (DY4EC., DY4EF.).

Connecting Plate - Enhanced Cable Trough

DU4B.
DU4S.

Product Information

Description

These cover plates create a clean and finished aesthetic where bench sections come together. Finishes are available to match the base finishes of Renew™ Link and Nevi™ Link benches. Connecting plates come 1 per package. Product is UL Listed.

Notes

For single sided bench runs, specify single sided (DU4S.CP). For back to back bench runs, specify back to back (DU4B.CP).

Connecting plates are required to connect 1 bench section to another section. The number of connecting plates needed in a run is 1 less than the number of bench sections in the run.

Connecting Plate-Enhanced Cable Trough is for use with height adjustable benching solutions with the enhanced cable trough (ECT) wire management option.

For height adjustable benching solutions with the basic cable trough (BCT) wire management option, see the Connecting Plate-Basic Cable Trough (DY4CP.).

Renew™ Link Back-to-Back Leg Shroud

DU4C.

Product Information

Description

This metal shroud covers and wraps around the legs of Renew™ Link back-to-back units to create a unified and integrated leg aesthetic.

Notes

To add shrouds to each end of a run, a quantity of 2 end-of-run shrouds must be ordered.

To add shrouds mid run, a quantity of 1 mid-run shrouds must be ordered for each connection point.

Product Information
Description
This cover plate creates a clean and finished aesthetic at the end of a run. Finishes are available to match the base finishes of Nevi™ Link benches. Product is UL Listed.
Notes
End Caps-Basic Cable Trough are for use with height adjustable benching solutions with the basic cable trough (BCT) wire management option.
For height adjustable benching solutions with the enhanced cable trough (ECT) wire management option, see the End Caps-Enhanced Cable Trough (DU4B., DU4S.).
For back-to-back applications, specify end cap-2 per box (EC) option. End caps are placed on each end of the run.
For 120° applications, specify 1 option of 2 per box (EC) and 1 option of 1 per box (EF) for a total of 3 end caps.

Connecting Plate - Basic Cable

DY4CP.

Trough

Product Information
Description
This cover plate creates a clean and finished aesthetic where bench sections come together. Finishes are available to match the base finishes of Nevi™ Link benches. Package contains 1 connecting plate. Product is UL Listed.
Notes
Connecting Plate-Basic Cable Trough are for use with height adjustable benching solutions with the basic cable trough (BCT) wire management option.
For height adjustable benching solutions with the enhanced cable trough (ECT) wire management option, see the Connecting Plate-Enhanced Cable Trough (DU4B, DU4S).
Connecting plate is required to connect 1 bench section to another section. The number of connecting plates needed in a run is 1 less than the number of bench sections in the run.

Single End Cap - Enhanced Cable
Trough

DU4B.

Product Information

Description

These cover plates create a clean and finished aesthetic at the end of runs. Finishes are available to match the base finishes of Renew™ Link and Nevi™ Link benches. Product is UL Listed.

Notes

For single sided bench runs, specify single sided (DU4S.EC). Single sided end caps (DU4S.EC) do not work with Nevi Link. For back to back bench runs, specify back to back (DU4B.EC).

Only 1 set of end caps needed per run. End caps are placed on each end of the run.

End Caps-Enhanced Cable Trough are for use with height adjustable benching solutions with the enhanced cable trough (ECT) wire management option.

For height adjustable benching solutions with the basic cable trough (BCT) wire management option, see the End Caps-Basic Cable Trough (DY4EC., DY4EF.).

Product Information

Description

This screen provides privacy between workstations and can create privacy and boundary from adjacent work areas. Installed height of all screen tops is 46". Screens are tackable fabric, laminate, or glass. Attachment hardware included.

Notes

Finish for glass screen hardware is always anodized (AN).

Back to back screen (BB) to be used with back to back bench applications.

Gallery screens (BG, SG) to be used on the end of back to back or single sided bench applications, respectively, and in conjunction with end of run gallery panels (DU9R.).

For use with boundary gallery panel (DU9B.) in single sided applications, specify single sided boundary gallery screen (SG). Single sided gallery (DU8x.SG) and single sided boundary (DU8x.SB) screens do not work with Nevi™ Link.

Screen accepts Customer's Own Material (COM). Yardage is estimated for nondirectional 54"-wide fabrics.

For vertical fabric direction (T):

Application-Width—Yardage

SG24—1.45

SG30—1.45

SB48—1.45

BG48—1.45

BB48—2.14

Gallery Panel

DU9B.
DU9R.

Renew™ Link Sit-to-Stand Bench

Product Information

Description

This gallery panel creates a finished and polished look to end of run or single sided applications. It also creates boundary for a single sided bench and an adjacent work space or aisle. The panel is laminate with thermoplastic edge, laminate with universal edge, or veneer with veneer edge. Edges are square. Glides have 1/2" of leveling adjustment.

Notes

For end of run application, specify end of run panel (DU9R.).
For single sided application on back side of work surface, specify single sided boundary panel (DU9B.). Single sided boundary gallery panel (DU9x.B) does not work with Nevi™ Link.
When specifying 29" gallery panel with inserts to be used with 17"-high fabric screen (Pari or flat edge), overall combined height will align with trough-mounted screens at 46" high. Order 17"-high fabric screen separately.
Grain direction is vertical on veneer, wood-grain and directional laminates.
Wood-grain and directional laminates are not available on 66"-72" wide gallery panels and are not a recommended application when using ZZ open line wood-grain or directional laminates.

Product Information
Description
This power entry connects a building's electrical from a wall, floor, or column to the end of a 4-circuit junction block and distributes up to 4 20-amp circuits. UL Listed for use with Renew™ Link and Nevi™ Link in the US and Canada.
Notes
Renew Link modular power products are only compatible with other Renew Link modular products, or with Connect™ 4-circuit modular components. Note that the UL listing for Renew Link is no longer applicable when connecting Renew Link power to Connect power.
Power entry can be field cut to the appropriate length.
For San Francisco, specify 3/8" flex metallic conduit option (C).
Finish color on liquid tight conduit is black. Finish color on metallic conduit is silver.
A licensed electrician must wire the power entry to the building's electrical system.

Renew™ Link Sit-to-Stand Bench

Product Information

Description
This power entry connects a building's electrical from a wall, floor, or column to the end of a 4-circuit junction block and distributes up to 4 20-amp circuits. It includes a junction box and harness. It is UL Listed for use with Renew™ Link and Nevi™ Link in the US and Canada.

Notes
Renew Link modular power products are only compatible with other Renew Link modular products, or with Connect™ 4-circuit modular components. Note that the UL listing for Renew Link is no longer applicable when connecting Renew Link power to Connect power.
Power entry comes with an 8" harness.
A licensed electrician must wire the power entry to the building's electrical system.
For linear bench sections, the NYC Power Entry (DU1352.08) can only fit, and must be installed in, 60"-wide and wider sections. For 120° bench sections, the NYC Power Entry (DU1352.08) can only fit, and must be installed in, 54"-wide and wider sections.

Short Receptacle-to-Receptacle Block Connector

Connect™-Junction Block, 4-Circuit

DU1358

Product Information

Description

This junction block attaches to the electrical cross bar and accepts 4-circuit receptacles for access and distribution of up to 4 20-amp circuits. It has connection points at both ends for attaching a power entry, a 4-circuit power jumper, or block-to-block connector. Finish is black. It is UL Listed for use with Renew™ Link and Nevi™ Link in the US and Canada. Attachment bracket and hardware included.

Notes

Renew Link modular power products are only compatible with other Renew Link modular products, or with Connect™ 4-circuit modular components. Note that the UL listing for Renew Link is no longer applicable when connecting Renew Link power to Connect power.

For back-to-back applications, specify the 2-duplex block (DU1358.DB) or the 1-duplex block (DU1358.SB).

Order duplex receptacle, 4-circuit (DU1355.) separately.

To route power from building to junction block, order 4-circuit power entry (DU1351. or DU1352.) separately.

To route power between junction blocks, order junction block to junction block jumper (DU1353.) separately.

To connect 2 junction blocks together, order a short block to block connector (DU1354.S) separately.

Logic G1000 Grommet Mounted Electrical Distributor

Y1425.

Product Information

Description

This Logic Power Access Solutions™ grommet mounted electrical distributor comes in several widths and configurations of simplex receptacles and USB-A and USB-C charging ports. The unit is powered using a standard power cord with plug end, or an IEC connector when used with Renew™ Sit-to-Stand tables. An integrated cord keeper at the face of the unit captures data cords. The unit pivots from a closed position to 135° allowing easy access to power and data cords stored beneath the unit. Product is UL listed.

Notes

Field cutting of grommet cutout is possible.

IEC connector for Renew power type (C) includes short cord designed to connect to the Renew table power cord through-leg option. Actual cord length may vary.

Simplex receptacles have alternating orientation and greater than normal plug spacing to accommodate most plug types.

USB ports provide a combined 20 watts of power to charge most devices and tablets at full speed. USB-C provides 15 watts of power and USB-A provides 10 watts of power individually. When using the USB-C and USB-A ports simultaneously, USB-C remains at 15 watts and USB-A reduces to 5 watts. Refer to Renew Sit-to-Stand Tables planning guide for specific application information.

20' cord/conduit length (20) is recommended for Exclave® applications.

20-Day or Less/Assigned Lead-Time Order Information

20-Day or Less and Assigned Lead-Time Programs

20-day or less and assigned lead-time products are designed for established Herman Miller dealers with pre-approved credit.

Products are distributed from multiple manufacturing facilities across the United States. All products and options not designated by an Assigned Lead-Time icon  will ship in 20 business days or less after being acknowledged by Herman Miller. Products and options designated by an  are on the assigned lead-time program and will ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Ordering Procedure

Please place orders through Order Manager. If this is not available to you, place orders through mail or fax. Verbal purchase orders will not be accepted.

Order Entry fax number for Meridian®

Filing and Storage: (616) 846 9236.

Order Entry fax number for all other products:

(616) 654 3085.

For more information, contact your Customer Care representative at: (866) 854 3048 ext 3400.

Shipments and Delivery

Per Herman Miller Terms and Conditions.

Changes and Cancellation

Per Herman Miller Terms and Conditions.

Vary Easy Program

Program Overview

The Vary Easy program offers expanded product selections beyond what is available through our standard offering. From expanded material and finish lists, to size availability, to completely new product configurations, the Vary Easy program offers it all at standard pricing, warranty, and lead-time.

Specifying Vary Easy using Made-to-Measure Plus

Vary Easy products are now available by clicking the Vary Easy/Options tile in the Made-to-Measure Plus tool.

Made-to-Measure Plus is a web-based tool available through Omni that takes the guesswork out of specifying products and service parts. It's quickly evolving to become your one-stop shop for specifying Herman Miller products and service parts, particularly customized product like Vary Easy and HM Options.

Vary Easy products are no longer published in marketing SIF for importing into specIT and other third-party specifiers. Specifying through the Made-to-Measure Plus tool allows us to make frequent updates and offer more complex products. It allows you to easily specify and price products and download SIF files to import into your specification tool. The acknowledgement process for Vary Easy products is the same as for any standard order. Vary Easy products ship with a standardized lead-time and are competitively priced.

For step-by-step instructions, reference the Made-to-Measure Plus page under Tools & Resources on Omni to watch the how-to video and to see how easy it is to specify Vary Easy products in Made-to-Measure Plus.

For Vary Easy product and specification questions, contact Product Services at 866 854 3048 (ext #1).

For technical questions about the Made-to-Measure Plus tool, contact Sales Technology Support at 866 854 3048 (ext #4) or sts@hermanmiller.com.

Stain-to-Match Program

Stain-to-Match Program

Program Overview

The Stain-to-Match program gives you the option of using veneer finishes that are not listed in the standard offering. The program allows Herman Miller to match a customer's existing recut or natural veneer, or create a new finish that is unique to an installation.

Specific information on approval, ordering, pricing, and warranty for the Stain-to-Match program is listed below. Questions and requests for assistance may be directed to Herman Miller Options at: (800) 654 3910

Stain-to-Match Process

1. Fill out the Options Stain-to-Match Request Form and send along with a color sample (2" x 3" minimum) to the Herman Miller Options Applications Team at the address provided on the form. The form can be found on Omni.
2. Within 7-10 working days, Herman Miller Options will send a sample of the color-matched stain on Herman Miller veneer to the requester for the customer's signed approval.
3. If the sample meets the customer's approval, sign the reverse side of the sample, scan and email the approval to: options@hermanmiller.com.
4. After the stain has been approved, a formal quotation with special number and pricing can be provided, or the product can be specified through the Vary Easy program, if available. Work with the Options team on final product needs and how to specify.
5. A purchase order can then be placed.

Stain-to-Match Warranty

Herman Miller warrants its products to be free from defects in craftsmanship from the date of delivery for the applicable warranty period. Herman Miller is responsible for the physical properties of the veneers available through the Stain-to-Match program, which include:

- STA: Stain-to-Match on Recut Ash
- STC: Stain-to-Match on Cherry
- STD: Stain-to-Match on Oak
- STK: Stain-to-Match on Reltech Anigre (Geiger)
- STP: Stain-to-Match on Maple
- STU: Stain-to-Match on Walnut (Geiger)

See your specification tool for product specific finish offering limitations.

Customer's Own Material Order Information — Workspaces

Customer's Own Material

Program Overview

The Customer's Own Material (COM) program gives you the option of using textiles other than those listed. Herman Miller will test textiles for application to Herman Miller products and will process orders for those with approved COM textiles only. COM textiles are on assigned lead times.

Omni lists an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for COM is listed below. Questions about the COM program and requests for assistance may be directed to your COM representative at:

(616) 654 3400

(866) 854 3048 ext 6543400

Customer's Own Material Warranty

Herman Miller does not warrant COM textiles. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Customer's Own Material Pricing

COM is a Category 1 fabric. There are no application charges for COM fabrics.

Ordering and payment for COM textile yardage are the responsibility of the customer and the textile supplier.

If desired, Herman Miller will purchase COM textiles directly from Maharam, Camira, C.F. Stinson, Guilford of Maine, Luna Textiles, Momentum Textiles and Ultrafabrics to simplify ordering and shipment. For this service, refer to the Supplier Connection program in Omni.

Application Note

Herman Miller does not guarantee that Customer's Own Material (COM) fabric patterns will align across panels/tiles or from one screen to the next. We also do not guarantee that COM fabric designs will be positioned consistently in the same location across several panels, tiles, or screens.

Textile Approval

1. Select a COM textile and a Herman Miller product.
2. If your textile does not show as tested in Omni, submit a request. You will be required to select a specific color of the textile and feature of the product to test, i.e., seat, back, etc.
3. Herman Miller will notify you of approval or disapproval within 4 days from receipt of the test yardage.

Ordering Products with COM

1. Refer to the specific products to determine the yardage required for COM textiles.
Note: Yardage requirements are based on nondirectional, 54"-wide textiles. 66"-wide textiles are needed for application on 60"-wide products. Additional yardage may be needed due to the unique characteristics of a textile.
2. Obtain the COM ID# in Omni. If the color you are ordering does not have a COM ID# assigned, click "Create ID".
3. Enter your order on Order Manager in Omni.
4. Upon receipt of your purchase order, Herman Miller will send you a PO acknowledgment.
5. Arrangements must be made for the textiles to be shipped from the supplier to Herman Miller for application to the Herman Miller products. Textiles must be tagged with the assigned identification number and the roll yardage quantity. See Omni for shipping procedures and current shipping addresses or contact a COM representative at (616) 654 3400 or (866) 854 3048 ext 6543400.
Products will be scheduled for production when COM textiles are received at Herman Miller. Standard lead times in effect at that time will apply.

Note: If textiles are to be purchased directly by Herman Miller through the Supplier Connection program, Herman Miller will handle the ordering and shipping process and will schedule your order for production upon receipt of your purchase order (dependent on textile availability). Refer to the Supplier Connection program for more information.

Customer's Own Material Order Information — Workspaces

continued

Supplier Connection

Program Overview

The Supplier Connection program is a service offered by Herman Miller to purchase approved COM textiles directly from Maharam, Camira, C.F. Stinson, Guilford of Maine, Luna Textiles, Momentum Textiles and Ultrafabrics. When you select a textile through this program, Herman Miller will facilitate the ordering, scheduling, and shipment of the textile directly with the supplier.

Suppliers included in the Supplier Connection program keep an active inventory of textiles that are pre-approved for application to Herman Miller products. Pre-approval applies only to the suitability of a textile for manufacturing and application to a Herman Miller product. Omni provides an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for the Supplier Connection program is listed below. Questions and requests for assistance may be directed to your COM representative at:

(616) 654 3400

(866) 854 3048 ext 6543400

Supplier Connection Warranty

Textiles purchased by Herman Miller through the Supplier Connection program are COM and are not warranted by Herman Miller. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Supplier Connection Pricing

Textiles purchased by Herman Miller through the Supplier Connection program are COM. COM is a Category 1 fabric. There are no application charges for COM fabrics.

Payment for textiles purchased by Herman Miller through the Supplier Connection program is the responsibility of the customer or dealer. Herman Miller will invoice the order at a total product cost based on the supplier's price published at the time of the order.

Textile Approval

1. Select a COM textile and a Herman Miller product.
2. If your textile does not show as tested in Omni, submit a request. You will be required to select a specific color of the textile and feature of the product to test, i.e., seat, back, etc.
3. Herman Miller will notify you of approval or disapproval within 4 days from receipt of the test yardage.

Ordering Products with Supplier Connection COM

1. Identify and include the following information on your purchase order:
 - Product number and option
 - Herman Miller's COM identification number
2. Enter your order on Order Manager in Omni.
3. Upon receipt of the purchase order, Herman Miller will process your order and send you a PO acknowledgment. Herman Miller will determine the yardage required to produce your product and will order and schedule for delivery the required textile. Standard lead times in effect at the time the textile is allocated at the supplier will apply to products ordered through this program.

- Available

A *Assigned lead-time textile.*

A *Maharam textiles are on assigned lead times.*

See page 2 for exception notes.

[illegible]

Application Note: Herman Miller cannot guarantee material/pattern alignment in adjacent products. For example, a fabric's pattern may not align from one screen to the next, or from one panel to the next.

* Available in select colors on 20-day lead-time. Refer to "Maharam Colors - Workspaces" for 20-day colors.

Distribution Rights

Working together since 1956, Herman Miller and Vitra are the authentic sources of designs by Charles and Ray Eames, Alexander Girard, and George Nelson. All the designs shown in this book are protected by law. Herman Miller has obtained all rights to make and sell these designs. Also, Herman Miller holds exclusive worldwide manufacturing and distribution rights for these products with the following exceptions:

Charles and Ray Eames, George Nelson, and Alexander Girard—Worldwide distribution rights for furniture in all areas except Europe and the Middle East. For those areas, please contact Vitra.

Isamu Noguchi—Worldwide distribution rights for the Noguchi Rudder Table. Distribution rights for the Noguchi Table in North America and Central America only. For all other areas, please contact Vitra.

Magis—Exclusive distribution rights in the US and Canada. For all other areas, please contact Magis.
