

Flo® Dual Monitor Arm

A variant of the award-winning Flo Monitor Arm, this elegant solution supports two monitor screens each weighing up to 20 pounds. Both arms include a quick-disconnect feature that allows you to easily install or remove the monitor. It has integrated cable management along the underside of the arm and a visual indicator that shows the arm's tension setting. The clamp is top mounted to speed up installation.

Benefits

- Fluid, dynamic movement for adjusting the position of two screens
- Supports two screens from a single clamp, optimizing desktop workspace while allowing smooth, intuitive independent adjustments of each monitor

Warranty

12-year, 3-shift
