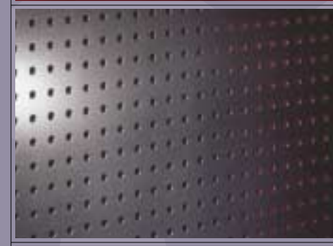
INWOOD PROGENY

The Progeny Collection of modular casegoods creates custom configurations that work for you.

Progeny works for people in fast paced work environments. The day flows effortlessly with accessible storage areas and compartments that allow organization on the fly. Work freely on continuous worksurfaces that dual as conference tables for impromptu meetings.

Progeny works for people in open plan environments where collaboration is key. Ideas are expanded and surface area is condensed when equipment is shared between stations. Privacy is achieved with roomy computer corners that block out the distractions of a busy workplace.

Progeny works for people in private office environments where one-on-one dialogue takes place and business strategies develop. Rich wood finishes and refined details create an upscale environment that is both comfortable and inviting.



Organize open plan environments easily with Progeny's freestanding design and pre-assembled components. Create complete privacy with enclosed workstations and full height overheads. Increase storage by adding corner hutches. Network effortlessly with full width openings on modesty panels offered in perforated metal or cherry veneer. With Progeny, combine intelligent space planning with the warmth of wood.
