# Modular Seating

## ENCLAVE LINX

### HOW TO SPECIFY ENCLAVE LINX MODULAR SEATING

First, determine the needs of your space. You can create runs of seating in just about any shape or layout. From straight runs to serpentine shapes, Enclave Linx provides functional modular seating solutions. If you imagine a circle, I-pieces create seating facing inward toward the circle. O-pieces face sitting outward from the circle. Round corner units and square corner units allow multiple options for seating in corner areas of a space. Ganging devices on each piece allow pieces to be connected or separated at any time.

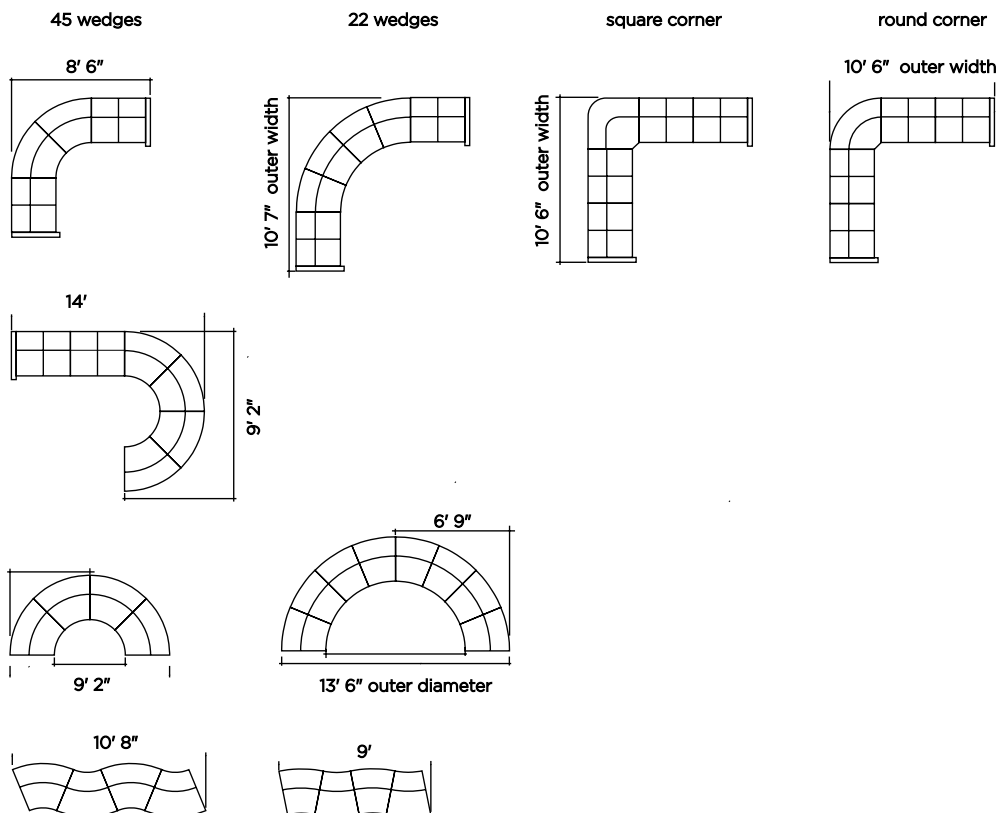

Specify table top laminates for 6110-T Modular Table. Select from our selection of standard laminates. Non-standard laminates are available for \$100 upcharge. See page 4 for matching finish/laminate information or instructions for Special Order (non-standard) Laminates.

If ganging is desired, please provide factory with configuration specifications.

To ensure accuracy it is suggested that you provide Customer Service with a diagram of your specific configuration requirements.

### SUGGESTED MODULAR CONFIGURATIONS

While almost any configuration is possible, below are suggested modular configurations for the Enclave Linx Series.
