Installation Notes

Install this product according to the installation guide.

Fixture dimensions are nominal and conform to tolerances in ASME Standard A112.19.3.

Minimum faucet spout reach of 5" (12.7 cm) is required. Review lavatory and faucet rough-in dimensions carefully to ensure the spout will reach over the rim into the basin.

Supplied basin clamp assembly requires 3/4" (1.9 cm) minimum countertop thickness. Installer must supply anchors for thinner countertops.

NOTICE: Countertop manufacturer or cutter must use the cut-out template provided by Kohler Co. (call 1-800-4-KOHLER). Kohler Co. is not responsible for cut out errors when the incorrect cut-out template is used.
