Real, Reclaimed & Prefabricated Natural Stone Systems

## realQUALITY

AUTHENTIC. Realstone is an authentic split stone fabricated by expert stonemasons in our factories. The stones are handpicked, cut and formed into panels or mats.

Each panel or mat is made from slate, quartzite or sandstone. Wall and floor mat panels are available in multiple sizes to make any job easy.

QUALITY CONTROLLED. Our Quality Control managers approve each piece before it's packaged for shipping. Special care is taken with each panel's design to ensure a striking appearance.

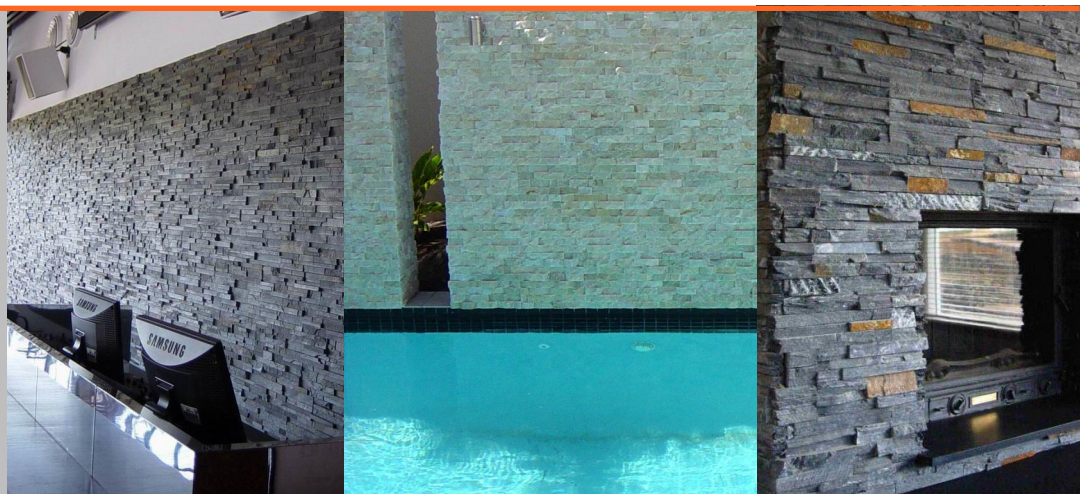

PERFECT FIT. Realstone System panels join together seamlessly. Corner pieces are cut with fingered ends joining each panel together with strength and without visible seams.

## realCOST SAVINGS

**REVOLUTIONARY.** Realstone Panels and mats revolutionize the installation of natural stone. Selected stones are adhered together to form standardized panels or mats. This enhances the colors and shapes of the various stones used in each panel.

**MODULAR.** Modular panels and mats make installation easier than using individual pieces. Installers don't have to cut, place and seal individual stone pieces. This reduces cost, weight and installation time.

**COMPLETE.** Realstone products are available in a multitude of configurations. This simplifies all kinds of project conditions, including 90-degree corners, jambs, square columns and more.
