

Product Information

Applicable products:	
Kitchen sink faucet without sidespray – two lever handles	K-6125-4
Kitchen sink faucet with matching finish sidespray – two lever handles (shown)	K-6126-4
Lever handles comply with the actuation force Accessibility Guidelines of the Americans with Disabilities Act.	ADA

Installation Notes

Install this product according to the installation guide.

Faucet K-6126-4 is supplied with extended levers to provide added functionality and ease of operation. This necessitates that the drilling for the sidespray should be no closer to the faucet than 5-1/2" (14 cm).

If this faucet is being installed on a four-hole or five-hole cast iron sink (with 4" (10.2 cm) on center drilling), a compact handle kit (part number 1082534) is available to support this installation. Contact Kohler for more information.

Lower flow aerator options are available - please refer to the Kohler price book.
