

# dream

Accentuate an area. Direct the eye. Or provide a touch of intimacy. Infusions accent canopies let you express your creativity in a whole new dimension. Anchored to the ceiling or wall with a uniquely simple cable system, Infusions accent canopies hover in seeming defiance of gravity. Create sculptural configurations – from simple accents to signature statements – in a variety of interesting colors, sizes and textures. With Infusions you can achieve an exciting custom look using standard components.

# express

There are so many curvaceous ways to express yourself with Infusions infill panels for Serpentina 3-D suspension systems. Configuration and lighting options make Infusions 2' x 2' infills an invaluable canvas. Allow your creativity to ebb and flow!

Infusions infill panels for Serpentina  
Armstrong Avenue, Lancaster, PA

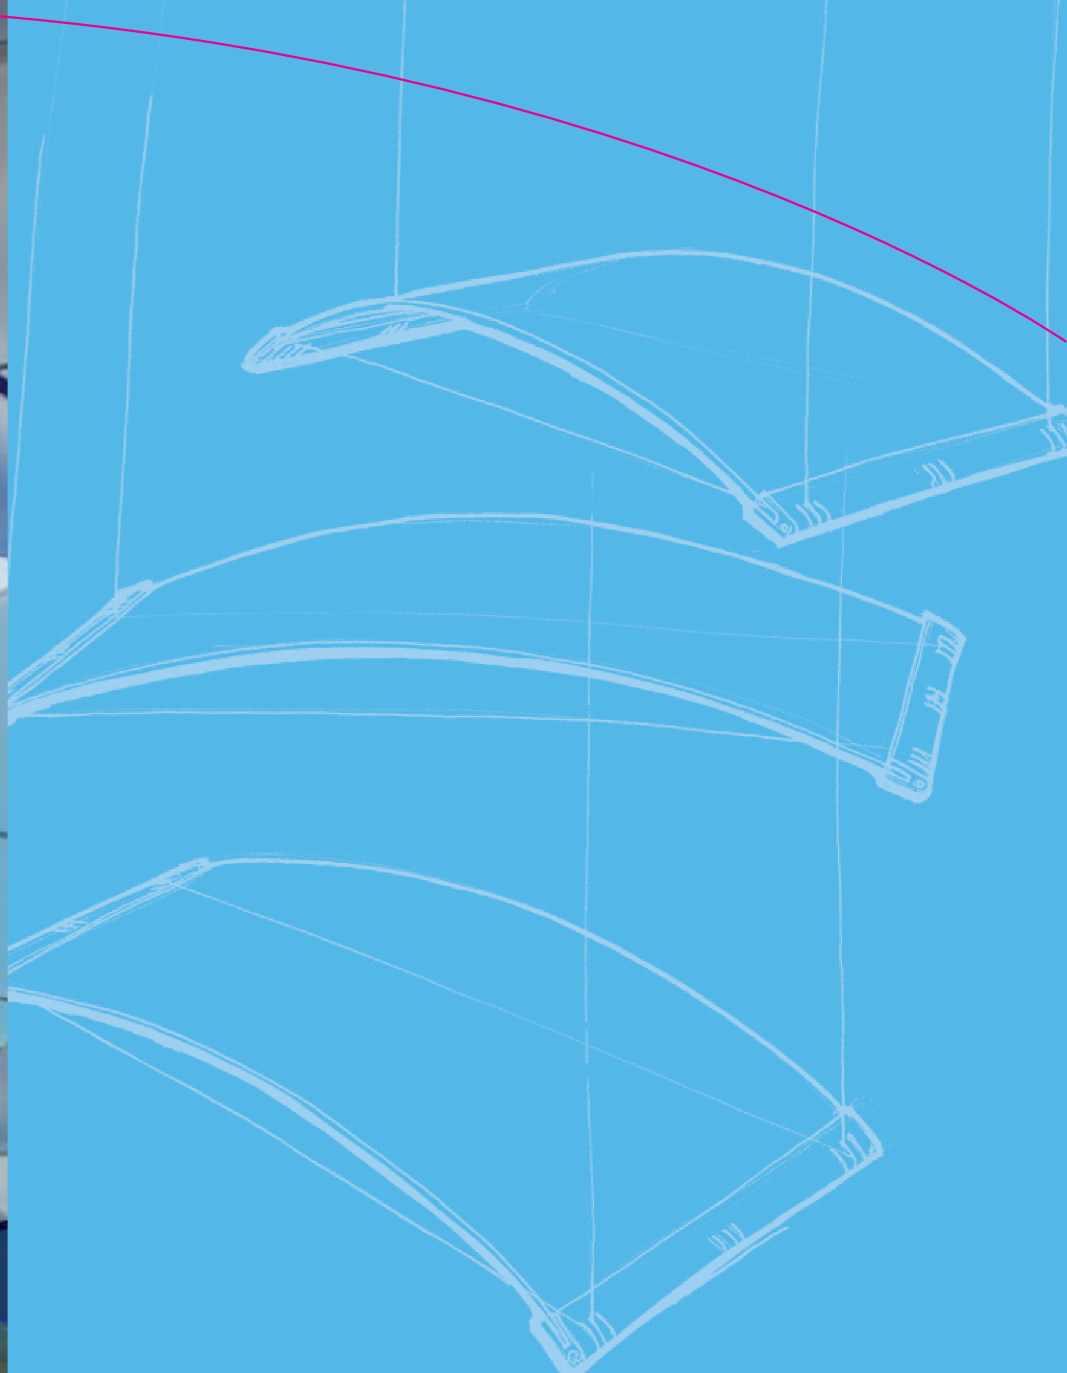

# embrace

Now there's a way to help humanize large-scale spaces or create visual intimacy. Available in 5' and 6' lengths and 2' wide, Infusions accent canopies provide an ingenious way to define zones of various sizes for a variety of purposes – from offering a relaxing respite to affording a comfortable refuge to setting an idyllic mood.

# mix it up!

Take an open space without personality and mix it up!  
And because accent canopies come in either 60° or 90° arcs, you can create a visual that is diverse, yet functional and aesthetically captivating.

# accentuate

Infusions lay-in panels can help define or add visual interest to a small space within a larger one. Its rhythmic sculptural form comes alive with different colors, configurations and lighting treatments. The possibilities are endless when using Infusions to add accent to interiors. Now it's easy to turn ordinary spaces into extraordinary places.

Infusions accent canopies are available in all colors marked with a †. Infusions lay-in panels and Serpentina infill panels are available in colors marked with an asterisk (\*).

## INFUSIONS® accent canopies, lay-in panels and infills for Serpentina

**Material:** Polycarbonate  
(Aluminum for canopies only)

**Surface finish:** Smooth

**Colors:** See palette, left

**Sizes:** 2' x 5' and 2' x 6' canopies,  
2' x 2' lay-in and infill panels

**Edges:** Square

**Key selection attributes:**

- Infusions can be used to accentuate an area, provide focus, create ceiling sculptures
- Standard components with custom looks
- Combine shapes, textures and finishes
- Lighting can enhance drama and effect
- Durable, impact resistant

**Typical applications:**

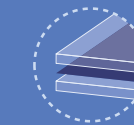

High visibility and focus areas, including hospitality, retail, offices, lobbies, atriums, open plenum areas, corridors, airports and transportation

### lay-in panels & infills for Serpentina

**Key selection attributes:**

- Standard 2' x 2' panels in 8 color patterns
- Lay-in panels install quickly and easily in 15/16" or 9/16" grid, or in Serpentina suspension systems

For more information on Infusions lay-in panels and infills for Serpentina, see data pages CS-3779, CS-3622 or visit [armstrong.com](http://armstrong.com). For specific information on the Serpentina 3-D suspension system, visit [armstrong.com/serpentina](http://armstrong.com/serpentina).

Infusions are typically made by infusing fabric of varying color, texture and translucency between layers of Polycarbonate resin.

### accent canopies

**Key selection attributes:**

- Use individually or in groups, convex or concave, radius of 60 or 90 degrees
- Suspend from the ceiling plenum or wall with a simple cable system
- Easy-to-order kits provide all the hardware needed
- Fast and simple installation – no special tools required

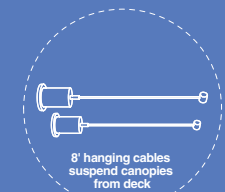

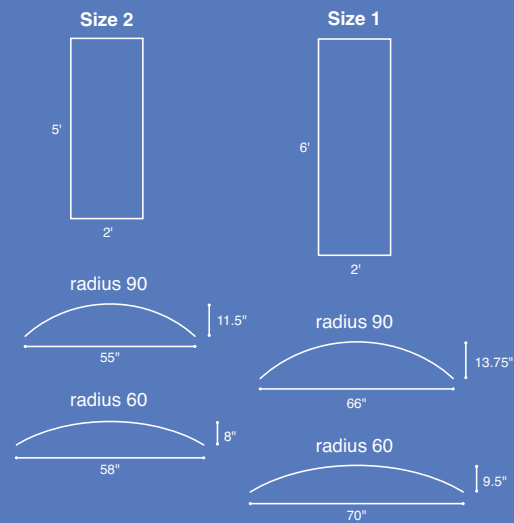

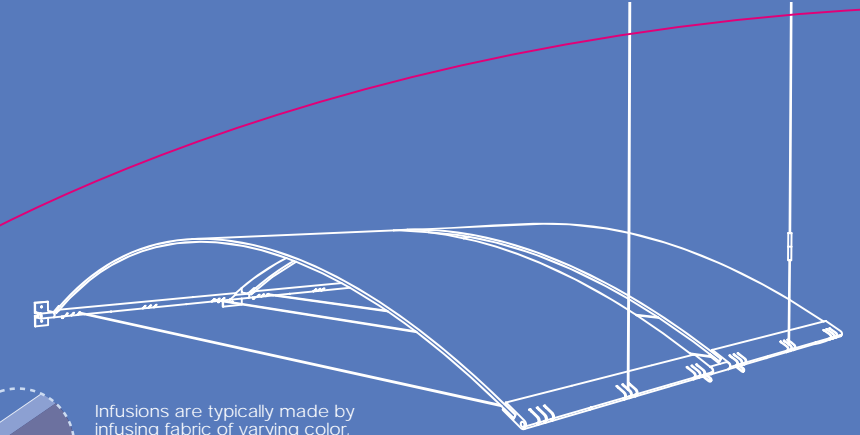

**Fire performance:**

For proper fire performance, do not install polycarbonate panels so that any portion of the panel is suspended directly above any portion of an aluminum panel

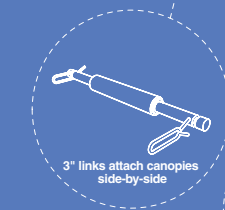

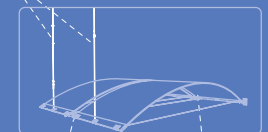

See Infusions Accent Canopies data page, CS-3649 for details, or visit [armstrong.com/infusions](http://armstrong.com/infusions) for design ideas

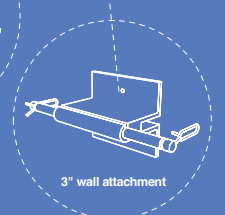

For information on SoundScapes acoustical canopies, please see data page CS-3691 or visit [armstrong.com/ceilings](http://armstrong.com/ceilings)

8" hanging cables suspend canopies from deck

3" links attach canopies side-by-side
